## **Executive Summary**

Culturally Specific Intervention Services (CSIS) provides culturally specific services to medium and high risk African American and Latino youth and their families through the Community Healing Initiative (CHI). CHI is a family- and community-centered collaboration designed to stop youth and gang violence in Multhomah County by addressing its root causes.

## **Program Summary**

This collaborative paradigm between the County's Department of Community Justice (DCJ), Department of County Human Services (DCHS) and community based providers is a joint system responsibility that entails shared financial resources and investments, shared system outcomes and shared risk. CHI applies supervision/suppression, intervention, and prevention strategies to youth and families who have recent involvement with high risk activities and behaviors relevant to violence/gun violence. This program serves approximately 90 families annually. Within CHI, each family receives a comprehensive assessment and individualized family service plan. Services are tailored to meet a family's individual needs and integrated in a manner that reduces and prevents gang violence.

A network of public safety and social service agencies, and community-based organizations known as The Youth, Family and Community Team build service capacity, promote integrated case management, increase connection to ethnic communities in the metropolitan area, and augment community safety. The Team focuses on sustainability through fostering family and community ownership and empowerment. Team services are evidence-based, culturally specific and family oriented. The family service plans address criminogenic needs that most closely link with recidivism and youth violence.

The goals of CHI are to prevent high risk youth of color from committing new crimes and penetrating further into the justice system. Culturally competent, strength-based programs that are delivered in homes, schools and the community are shown to be most effective with disenfranchised youth. All the work conducted through CHI prevents unnecessary and expensive detainment in correctional facilities.
