## **Executive Summary**

The Telecommunications program manages all voice and video communication services for about 5,000 County and partner employees. The services provided by this program facilitate communication with citizens, business partners, and employees.

## **Program Summary**

The County maintains an enterprise voice system that processes over 25,000 incoming calls and voice mails each day. This program coordinates the installation and maintenance of all voice equipment and associated technologies including: wiring, switching and routing equipment, desk phones, call center consoles and connectivity to the public telephone system. Telecom is responsible for supporting phones and applications for about 5,000 customers across 99 County locations. Telecom works closely with Departments to identify communication needs and then implement technologies to address them. Key services supported by this program include all County call centers, such as the Mental Health Crisis line. Large projects coordinated by Telecom include office relocations, facilities provisioning, and remodeling. Telecom also manages the acquisition, configuration, and maintenance of 26 video conferencing units at 14 locations. These are used heavily by the State Courts, Department of Community Justice, and Public Defenders. Telecom is in the process of migrating to a new technology platform funded in program offers 78018A & B IT Network Convergence.
