### **Executive Summary**

Multnomah County's Level III (Medium) Risk Generic Supervision unit was created due to research which shows that over supervising offenders may increase their likelihood to recidivate. Level III Risk Supervision is designed to supervise offenders at a level that is appropriate to their risk. The primary focus is to construct appropriate supervision strategies by addressing the offenders' dynamic criminogenic risks, needs, and responsivity factors in order to decrease the risk for recidivism.

### **Program Summary**

The Level III Risk Generic Supervision unit supervises approximately 950 offenders annually. Parole/Probation Officers (PPO) tailor supervision methods based upon the needs and risk level of the offender. Supervision may be conducted through: a) home and office visits; b) contacts with family; c) correspondence with community members; d) positive reinforcement principles (when offenders have demonstrated compliance); and e) coordination with law enforcement agencies, as appropriate.

Adult supervision is an essential component of public safety. Nearly all prison inmates return to their county of sentencing upon release, where they must complete post-prison supervision. The risk of these offenders committing new crimes is reduced when evidence-based supervision is in place and monitored. Concurrent with the implementation of evidence-based supervision practices, Multnomah County has experienced a steady decline of recidivism rates over the past ten years.
