Multnomah County				
Program #25055B - Crisis	Backfill			4/21/2014
Department:	County Human Services	Program Contact:	Neal Rotman	
Program Offer Type:	Existing Operating Program	Program Offer Stage:	As Proposed	
Related Programs:	25055A			
Program Characteristics:	Backfill State/Federal/Grant			

Executive Summary

This scaled offer represents the \$960,000 deficit in crisis services funding due to the FY12 state general fund reduction of \$1,584,090 in crisis services. This offer would allow the Mental Health Urgent Walk-In Clinic (UWIC) to maintain operating 15.5 hours per day seven days a week. Without this funding the program will be reduced to 9 hours per day Monday-Friday. A decrease of services that will lead to the increase in the use of Emergency departments for crisis evaluation and stabilization.

Program Summary

The Urgent Walk-In Clinic (UWIC) is a clinic based service contracted with a community based organization, currently available from 7 am to 10:30 pm, 365 days/year, that provides crisis evaluation, triage, and stabilization on a walk-in basis. The Urgent Walk-In Clinic is the only service available to indigent clients in mental health crisis in Multnomah County with immediate access to a psychiatrist or psychiatric mental health nurse practitioner for medication evaluation and treatment. In addition, the UWIC links clients to the appropriate level of services and/or coordinates with current mental health or physical health services to address treatment and care needs identified during the crisis evaluation.

The total number of clients served in FY13 was 3,603. Of this number of clients seen, 96.6% did not need to be referred to an Emergency department for acute services following their visit. The majority of clients (65.6%) were discharged to outpatient mental health services (30.4%) or to their PCP (35.2%) for follow up services. Only 14% of those receiving crisis services form the UWIC returned for follow up services within the year.

Without the \$960,000 in funding the program will need to be reduced to 9-hours per day Monday-Friday. This reduction of 63.5 hours a week could reduce contacts by up to 1,800 per year and will increase the use of Emergency departments for crisis evaluation and stabilization.
