# Information Sharing

Proposal to the LPSCC  
Executive Committee

April 1, 2014

## Why Information Sharing?

- Our work is collaborative in nature
- What does successful information sharing look like?
- What are Information sharing gaps?
- Georgetown Public Policy Institute trained 4 local professionals; we have expertise and passion to improve
- Good information sharing will:
  - › Improve outcomes for youth and clients
  - › Decrease service duplication
  - › Increase system efficiency

# What is Information Sharing?

- According to GPPI, there are three levels of information sharing:
  1. Individuals
  2. Data sharing for law, policy and program development
  3. Program evaluation and performance measurement
- National best practice
- Sustain Information Sharing efforts past our tenure

## Two prongs of Information Sharing

Prong 1: Information Technology

Prong 2: People and collaboration, regarding:

- > Releases of Information
- > HIPAA, other laws
- > Continuity of care
- > Case management
- > Clients in crisis
- > Informed consent
- > Ethical considerations/aspects

## What Information Sharing is *not*

- Sharing information on anyone for any reason.
- Disregarding or circumventing local, state, and federal laws.
- Only focused on IT

## Desired Output

- Memoranda of Understanding with details for each of the three levels of information sharing
- Detailed scope of what information can be shared by whom and when
- System policy changes endorsed by LPSCC that state an expectation of information sharing.

# The ASK

1. LPSCC endorse information sharing
2. Establish key convener/point person for each needed MOU, as identified
3. Support and provide resources to develop and implement MOUs
