

## A Collaborative Youth Reformation System

# Enhancing Oregon Juvenile Justice

## A Collaborative Youth Reformation System

**Who are we working with?**

**How can we maximize limited resources?**

**How can we increase effectiveness?**

**How can we engage our partners?**

**Oregon:**

**Coming together to  
enhance our Juvenile  
Justice System**

**Enhancing decision-  
making by using data  
and research**

# Enhancing decision-making by using data and research

```
graph TD; A((Enhancing decision-making by using data and research)) --> B((What should be the capacity of our system today and in the future?)); A --> C((Are we bringing the right youth into the system and placing them into the right environment?)); A --> D((What should the length of stay be in each part of the continuum?)); A --> E((What interventions do youth need to maximize their opportunities to be successful?)); A --> F((How do we hire and support staff to work effectively with the youth we serve?)); A --> G((How do we create environments where youth can be viewed as assets?)); A --> H((How do we integrate youth into their communities in ways that support success?)); A --> I((How do we know our investments are effective and achieving desired results?));
```

What should be the capacity of our system today and in the future?

How do we know our investments are effective and achieving desired results?

Are we bringing the right youth into the system and placing them into the right environment?

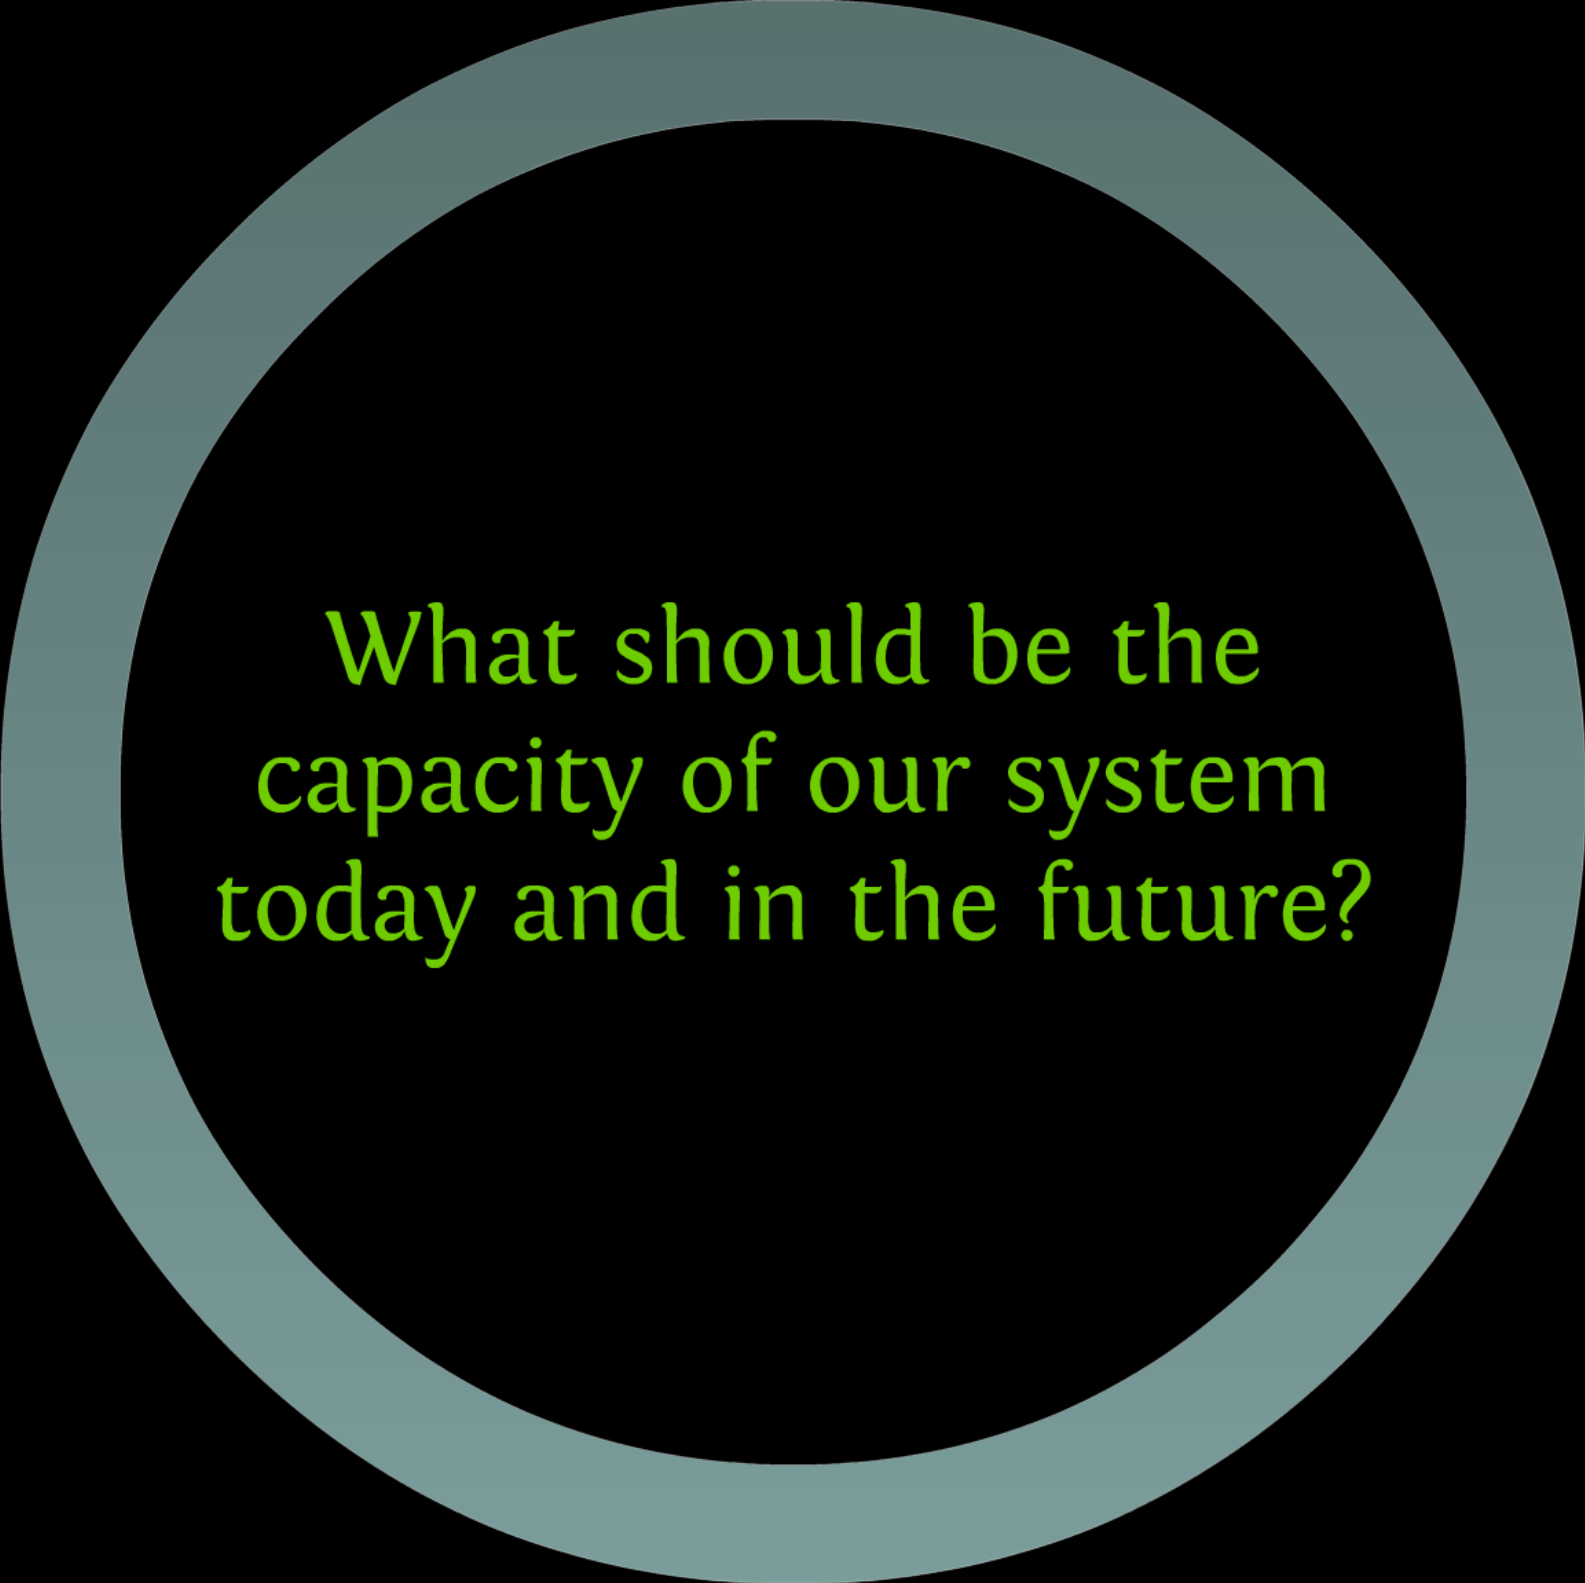

How do we integrate youth into their communities in ways that support success?

What should the length of stay be in each part of the continuum?

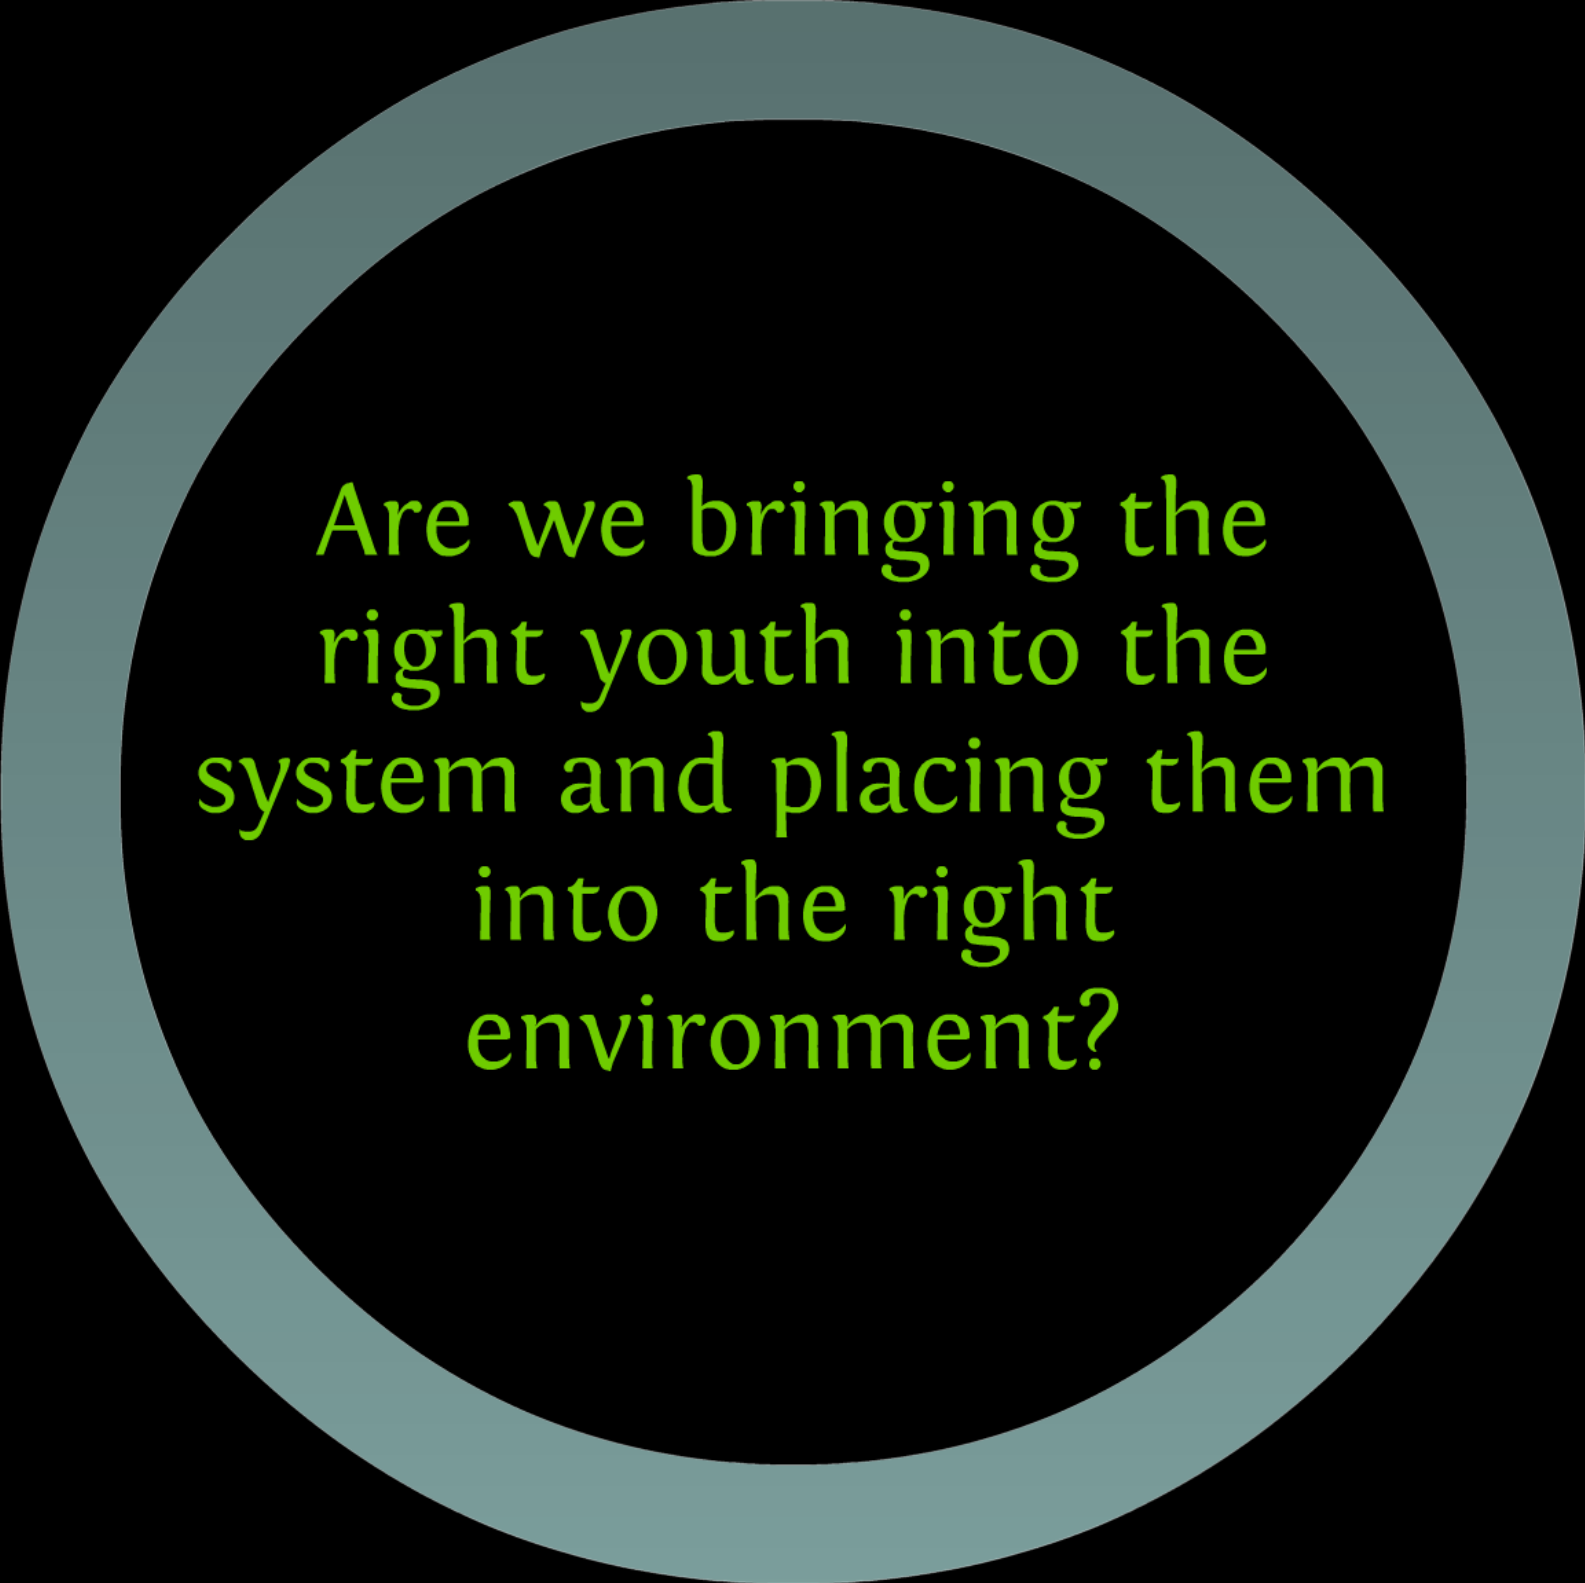

How do we create environments where youth can be viewed as assets?

What interventions do youth need to maximize their opportunities to be successful?

How do we hire and support staff to work effectively with the youth we serve?

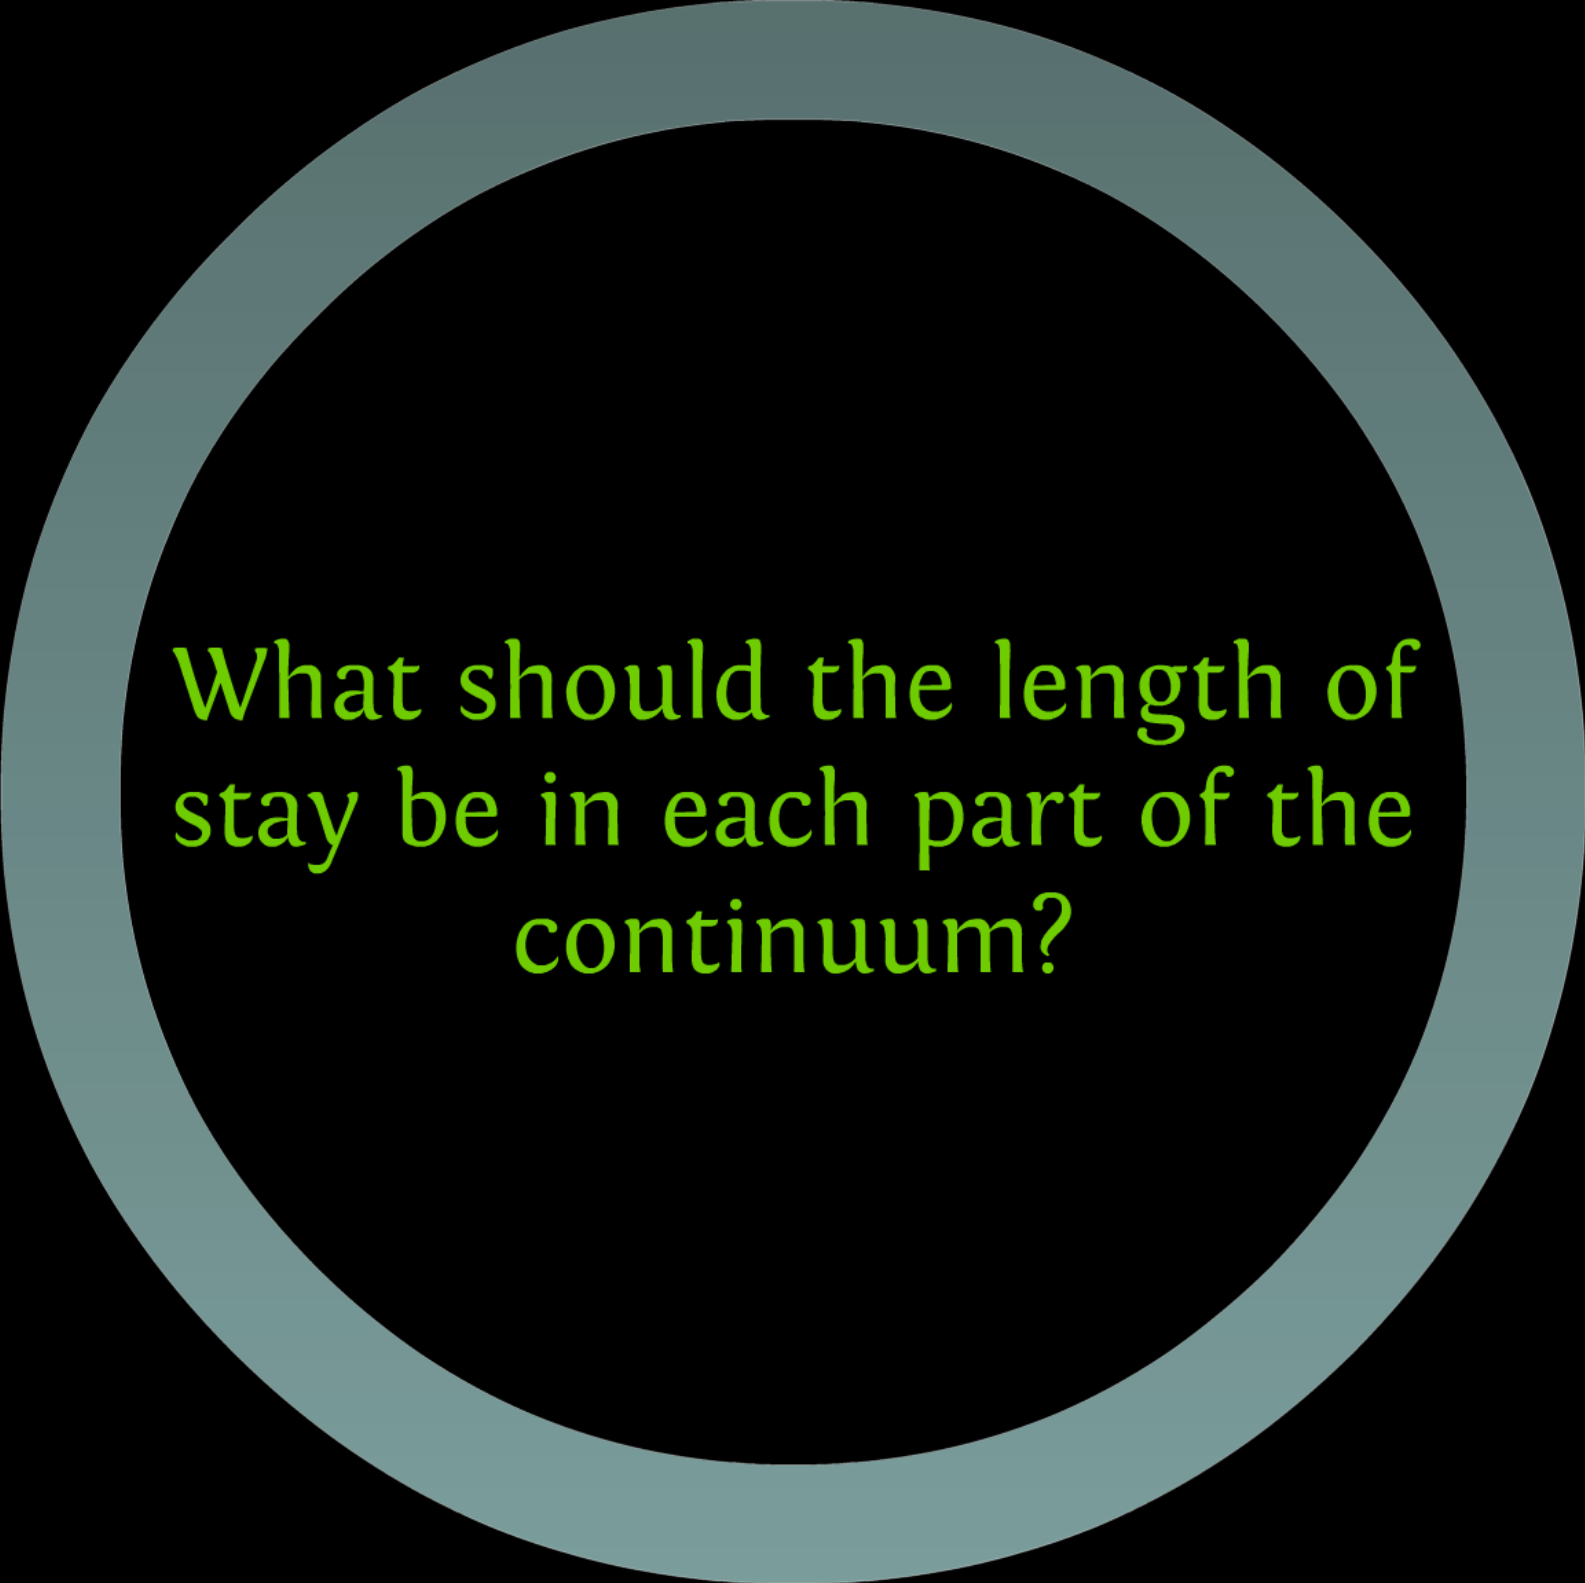

A large teal circle is centered on a black background. Inside the circle, the text "What should be the capacity of our system today and in the future?" is written in a green, serif font.

What should be the  
capacity of our system  
today and in the future?

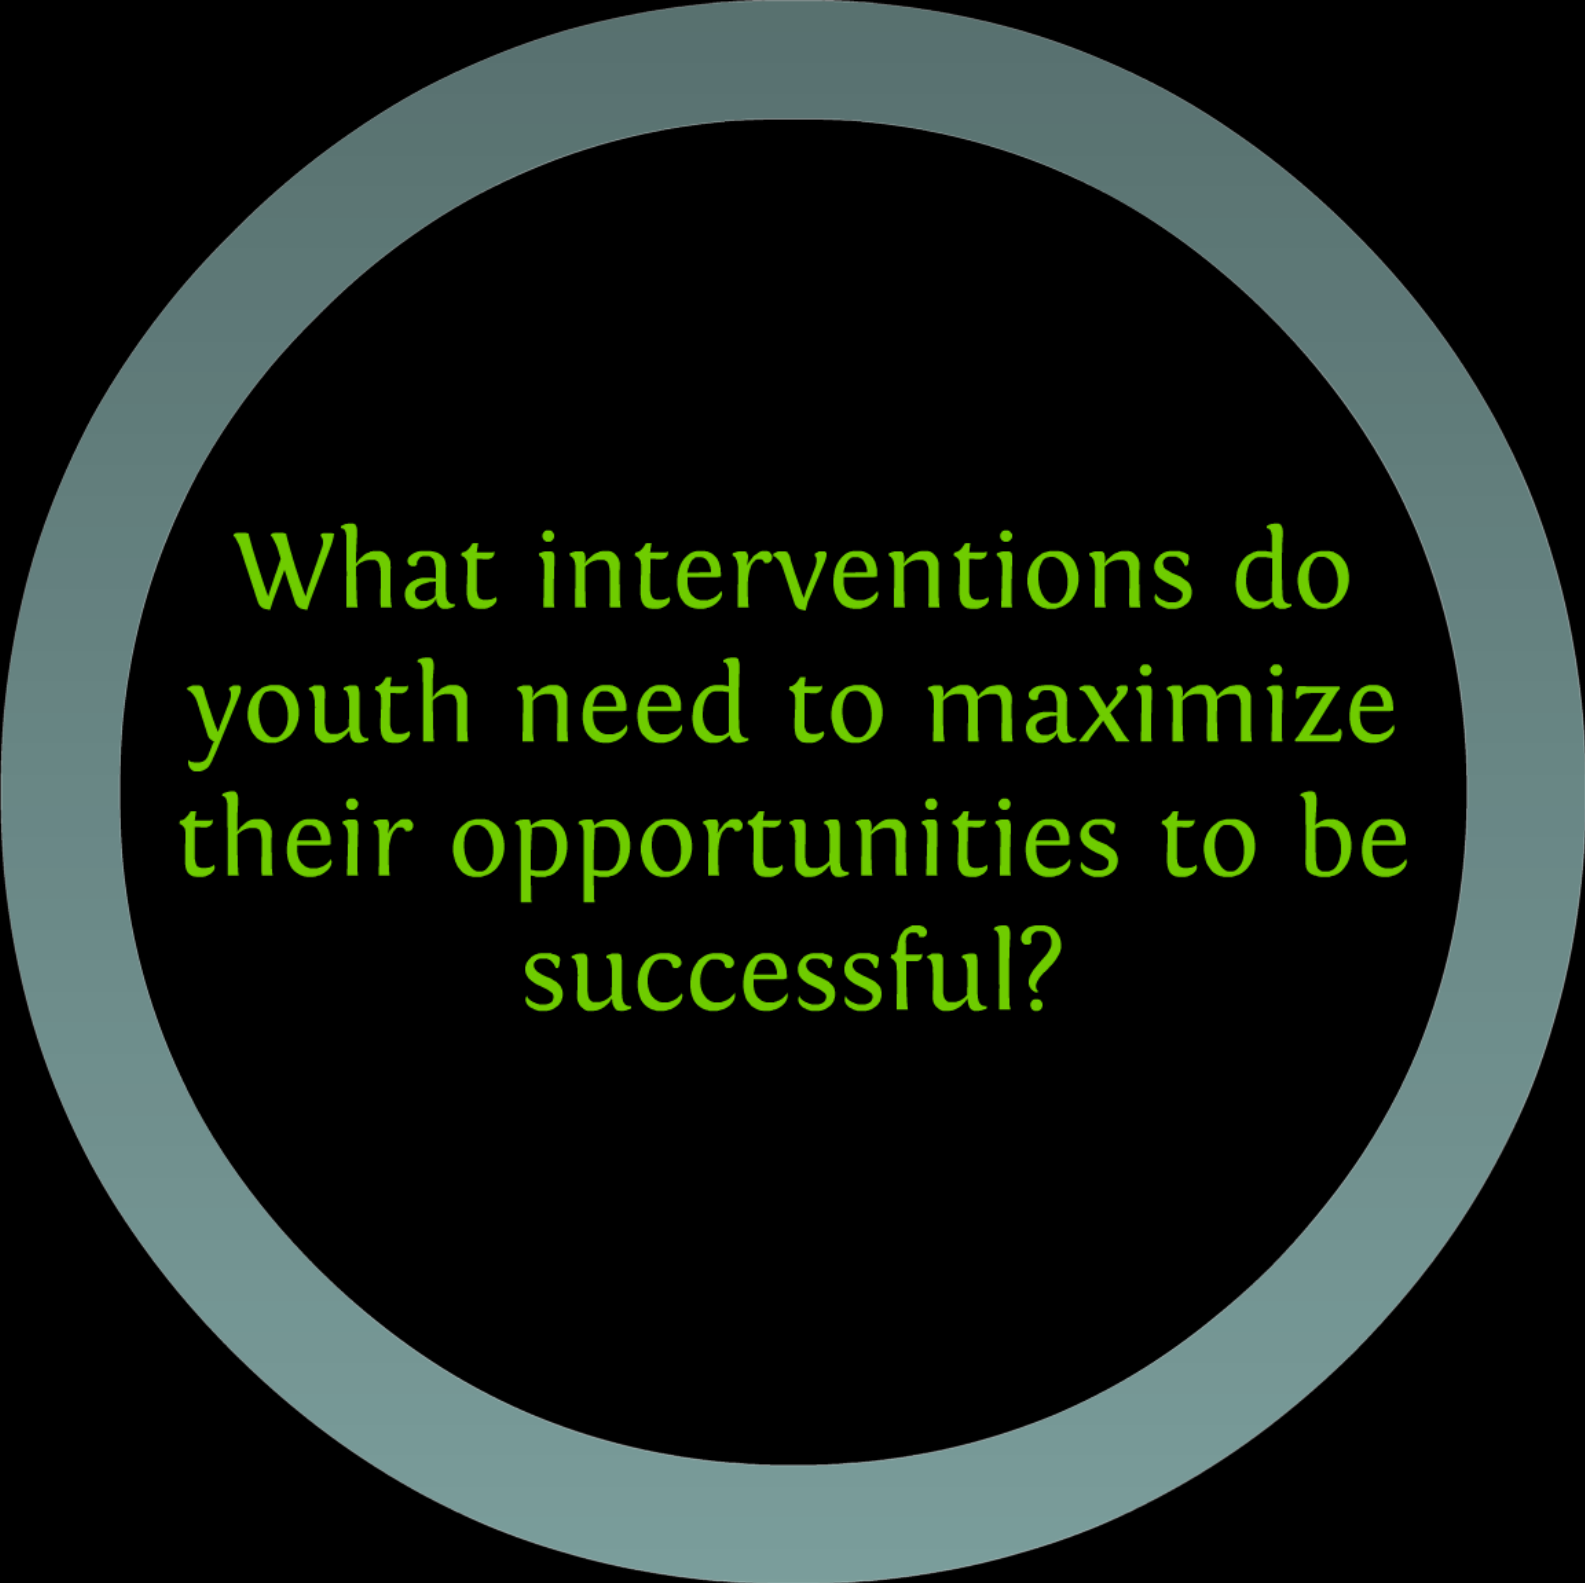

Are we bringing the  
right youth into the  
system and placing them  
into the right  
environment?

What should the length of  
stay be in each part of the  
continuum?

What interventions do  
youth need to maximize  
their opportunities to be  
successful?

How do we hire and  
support staff to work  
effectively with the youth  
we serve?

How do we create  
environments where  
youth can be viewed as  
assets?

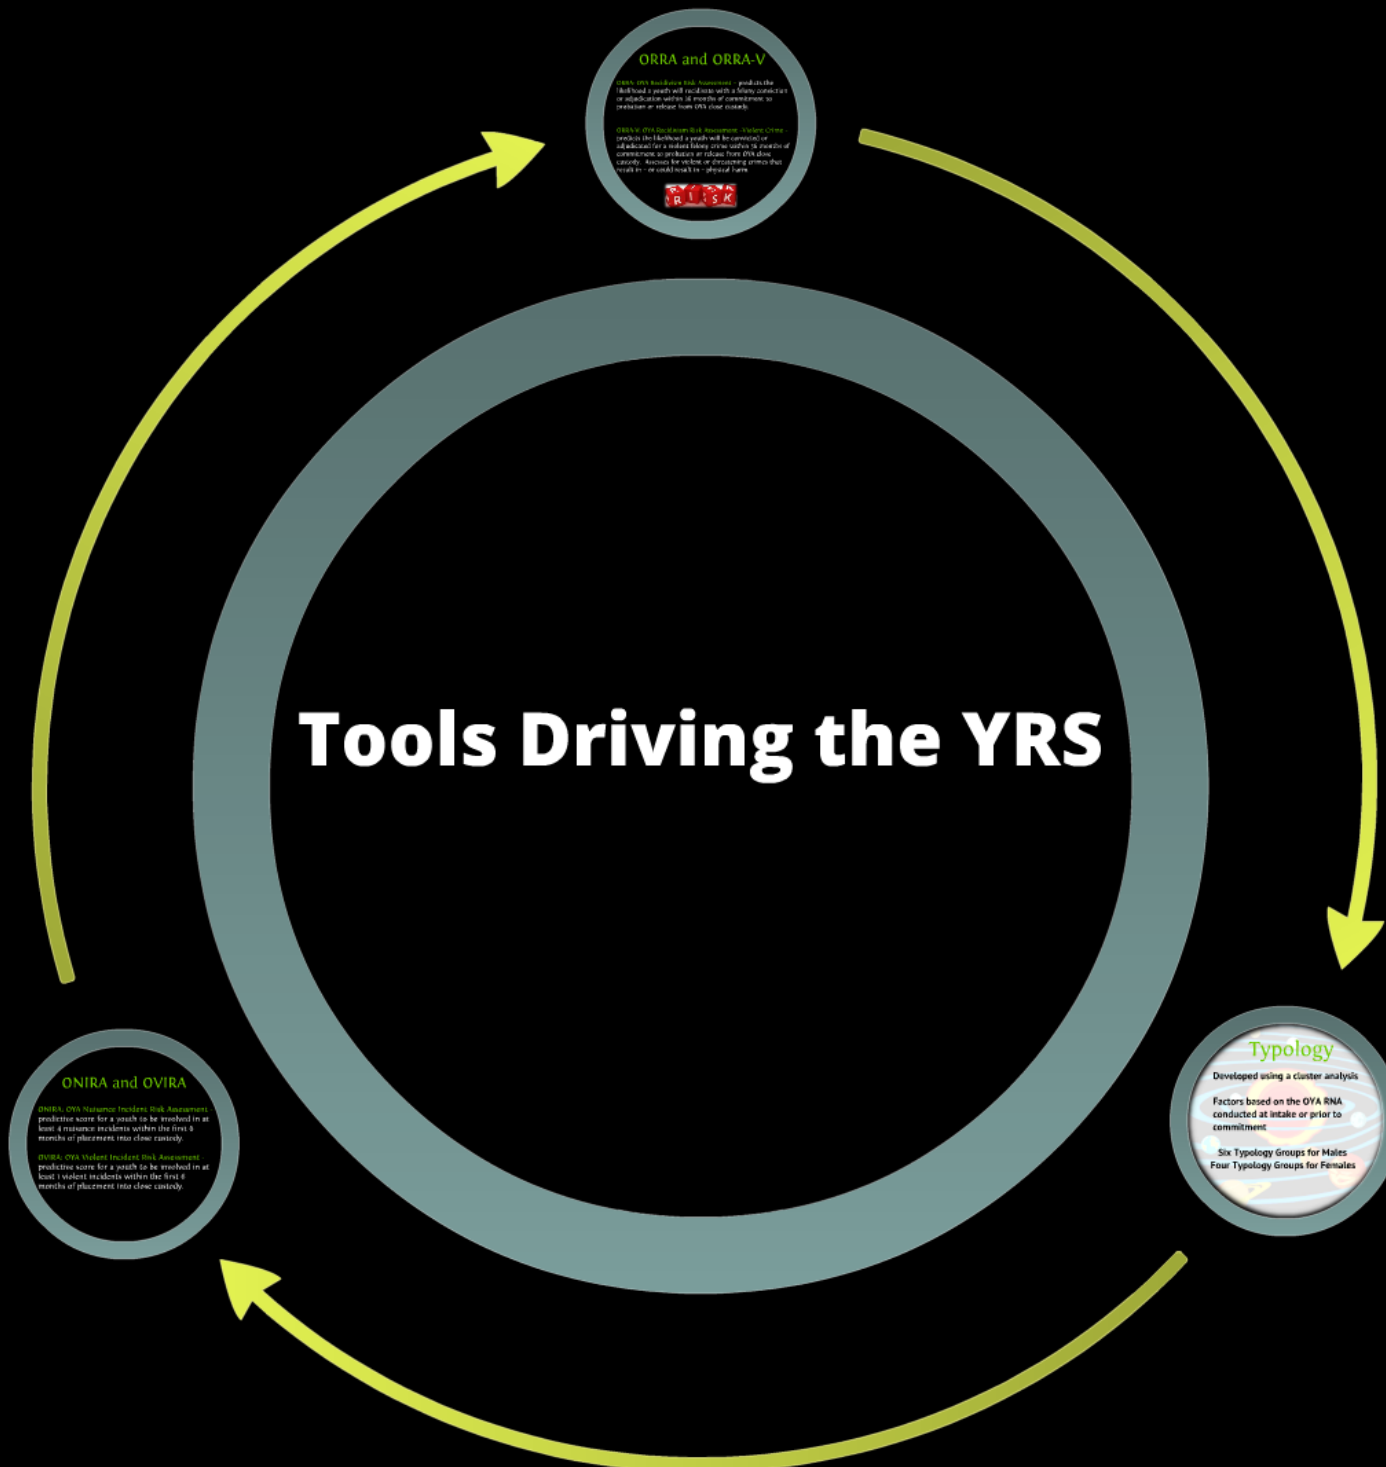

How do we integrate  
youth into their  
communities in ways  
that support success?

How do we know our  
investments are effective and  
achieving desired results?

**Collaboration  
Partnerships  
Engagement  
Commitment**

# ORRA and ORRA-V

**ORRA: OYA Recidivism Risk Assessment** – predicts the likelihood a youth will recidivate with a felony conviction or adjudication within 36 months of commitment to probation or release from OYA close custody.

**ORRA-V: OYA Recidivism Risk Assessment –Violent Crime** – predicts the likelihood a youth will be convicted or adjudicated for a violent felony crime within 36 months of commitment to probation or release from OYA close custody. Assesses for violent or threatening crimes that result in – or could result in – physical harm.

# ONIRA and OVIRA

**ONIRA: OYA Nuisance Incident Risk Assessment** - predictive score for a youth to be involved in at least 4 nuisance incidents within the first 6 months of placement into close custody.

**OVIRA: OYA Violent Incident Risk Assessment** - predictive score for a youth to be involved in at least 1 violent incidents within the first 6 months of placement into close custody.

# Typology

**Developed using a cluster analysis**

**Factors based on the OYA RNA  
conducted at intake or prior to  
commitment**

**Six Typology Groups for Males  
Four Typology Groups for Females**

# **Population Forecast**

## **"Right Youth"**

- **Determine number of beds currently needed**
  - **Forecast bed need for next 7 - 10 years**

# Placement and Treatment

**"Right Placement, Right Treatment,  
and Right Length of Time"**

- Place the right youth on the right path to attain the best outcome
- Serve youth in ways which effectively minimize recidivism and maximize positive youth outcomes
  - Develop and enhance services based on youth needs

# Program Evaluation Continuum

## "Right Outcomes"

# **Community Context**

**"Right Transition Supports"**

- **Identify "healthy" and "unhealthy" factors for transitioning youth**
- **Use information in transition planning**
- **Help support communities to engage with youth in the juvenile justice system**

## Youth Reformation System Components Working Together
