Department: Health Department **Program Contact:** Loreen Nichols
Program Offer Type: Support **Program Offer Stage:** As Requested
Related Programs:
Program Characteristics: In Target

Executive Summary

Public Health Administration and Quality Management (PHA-QM) provides leadership, administration, and quality management to support the foundational public health competencies of the Public Health Division (PHD). The PHD promotes and protects health, and prevents disease of all residents within Multnomah County. PHA-QM sets the strategic direction of the PHD and ensures accountability through achieving performance standards related to Public Health Accreditation, Public Health Modernization, and effective financial management.

Program Summary

Through leadership, administration, quality and project management, Public Health Administration and Quality Management (PHA-QM) enables the Public Health Division (PHD) to meet the foundational capabilities and legal requirements to act as Multnomah County’s local public health authority. The PHD is responsible for systems that promote and protect the health of, and prevent disease for, all residents and diverse communities within Multnomah County. Strategies of the PHD include direct services, policy interventions, community partnerships, planning, and assessment. The following program areas support these strategies.

Leadership: This program area includes the Office of the Public Health Director. The Director is responsible for leadership and oversight of public health functions in Multnomah County. This unit sets the strategic direction of the PHD and anticipates future needs of public health in Multnomah County through division-wide strategic planning and active participation in regional and statewide public health systems. Major areas of focus include assessment and implementation of public health system reform and leadership on the Coalition of Local Health Officials, the Governor-appointed Public Health Advisory Board of the Oregon Health Authority, and the Multnomah County Public Health Advisory Board.

Administration: This program area provides core administrative functions for the PHD. Division-wide administration ensures accountability through achieving performance standards related to Public Health Accreditation, Public Health Modernization, effective financial management, and the PHD Strategic Plan.

Quality and Project Management: Oversees quality assurance, quality improvement, performance measurement, and information management activities for public health assessment, service delivery, community engagement, and partnerships. Other key functions include public health workforce development; public health informatics; project management for emerging public health issues with departmental and community significance (such as the prescription opioid epidemic); and academic partnerships.

Performance Measures

Measure Type	Primary Measure	FY16 Actual	FY17 Purchased	FY17 Estimate	FY18 Offer
