

Program #40001 - Public Health Administration and Quality Management 3/7/2022

Department: Health Department **Program Contact:** Jessica Guernsey
Program Offer Type: Support **Program Offer Stage:** As Requested
Related Programs:
Program Characteristics: In Target

Executive Summary

Public Health Administration and Quality Management (PHA-QM) provides leadership for the Public Health Division (PHD). As the local public health authority, Public Health works to promote and protect health, and prevent disease for all residents within Multnomah County. PHA-QM sets Public Health's strategic direction and supports programs in achieving operational and fiscal accountability.

Program Summary

PHA-QM provides administrative support and project management to ensure that the PHD fully performs its foundational role and achieves legal requirements as Multnomah County's local public health authority. The PHD is responsible for systems that promote and protect the health of, and prevent disease for, diverse communities within Multnomah County. Strategies of the PHD include direct services; policy interventions; prevention initiatives; public education and communications; community partnerships; planning; capacity building; and research, evaluation, and assessment. The primary goal of PHA-QM is to provide support to PHD programs so they can reduce health disparities experienced by BIPOC communities. PHA-QM program areas include:

Administration - This program area provides core administrative functions for the PHD to support division-wide infrastructure. Division-wide administration ensures accountability through achieving performance standards related to Public Health Modernization, effective financial management, the PHD Strategic Plan, and Community Health Improvement plan.

Project Management - This program area supports quality assurance and improvement; performance measurement; information management; public health workforce development; public health informatics; project management for emerging public health issues with departmental and community significance (such as the opioid epidemic); and academic partnerships.

Racial Equity - PHA-QM works closely with the Public Health Office of the Director and all PHD programs to use community- and program-level data to analyze racial disparities; engage culturally specific groups to reach BIPOC communities; and include BIPOC communities in the design of programs, assessments, planning, interventions, and direct services.

Performance Measures

Measure Type	Primary Measure	FY21 Actual	FY22 Budgeted	FY22 Estimate	FY23 Offer
Output	# of quality and strategy projects identified	6	6	6	6
Outcome	% of identified projects successfully completed	90%	90%	95%	90%

Performance Measures Descriptions

Projects include both COVID-19-related and non-COVID-19-related projects.

Legal / Contractual Obligation

Oregon Revised Statute Chapter 431 State and Local Administration and Enforcement of Public Health Laws
