

Legal / Contractual Obligation

ORS 431 and 433 empower the County and Health Department to supervise matters related to preserving the life and health of the people of the County. An intergovernmental agreement with the Oregon Health Authority (Public Health Division) specifies requirements for public health preparedness activities supported with federal CDC funds. A separate IGA with Oregon Health Authority guides regional health system preparedness goals and activities supported with federal US Dept. of Health and Human Services funds. Both sources of Federal funds are dedicated to emergency preparedness, and cannot supplant other funding or be used to build general public health capacities.

Significant Program Changes

Last Year this program was: FY 2015: 40005 Public Health & Regional Health Systems Emergency Preparedness

Education reduction - the overarching goal is to decrease the size of the incident management teams and the number of trainings in order to focus on depth and effectiveness of training.

Scores in TAR to ORR - the ORR process is new from the CDC as a replacement for TAR. There are no numerical scores assigned. Once we have gone through the ORR process, we will have a better understanding of how best to quantify and report this measure.
