## Explanation of Revenues

\$ 277,000 - City of Portland Rat & Mosquito Control  
\$ 65,446 - City of Portland Specified Animal Permitting

## Significant Program Changes

**Last Year this program was:** FY 2022: 40008 Vector-Borne Disease Prevention and Code Enforcement

In FY22, staff that primarily work on mosquito monitoring and abatement were redeployed to work on rodent response and encampments. In FY23, these staff will transition back to mosquito inspection and monitoring. In FY23, the program is being stabilized through increased County General Fund to right size supply and contract costs while maintaining 2.00 FTE to treat for mosquitoes (reduced from 4.00 FTE in FY22). The program moved 2.82 FTE, which was added mid-FY22 to support rodent inspections in encampments, from this offer to 40008B. COVID-19 Impacts: In FY22, Vector staff were reassigned to COVID-19 response for multiple events. The program maintained services with voluntary overtime for staff. Most community outreach events were canceled, which significantly reduced the program's ability to engage the community in vector prevention. In FY23, the program anticipates returning to pre-pandemic operations.
