Total Revenue	\$74,066	\$1,260,278	\$73,694	\$1,189,293

Explanation of Revenues

The program offers is funded by federal and state grants in addition to patients fees.

Federal and state grants support best practices (e.g., TB evaluations and LTBI treatment support for newly arriving refugees; Hepatitis B screening and Linkage to care for foreign-born residents) and expanded public health surveillance activities (e.g., Metropolitan Area Pertussis Surveillance) that build upon our statutory responsibilities.

State of Oregon LPHA: \$915,890

Medical Fees: \$151,151

Refugee grant, Hepatitis B grant: \$122,252

Significant Program Changes

Last Year this program was: 40010 Communicable Disease Prevention and Control

The complexity of our infectious disease caseload has increased in recent years, with increasing communicable disease cluster investigations and case management for infectious TB patients with multidrug resistant (MDR and XDR) strains of TB. This rapidly changing environment requires a nimble, well-trained staff who can provide consistent leadership in complex investigation and response activities. We are adding a 1.0 FTE Epidemiologist to strengthen case and outbreak investigation capabilities.
