Significant Program Changes

Last Year this program was: FY 2019: 40010A-19 Communicable Disease Prevention and Control

In FY20, Program Offer 40014-19 Immunization, which includes capacity for school exclusion immunization work, was consolidated into this offer as part of divisional and program offer reorganizations. In FY20, this offer has decreases in FTE, scope/level of services, and revenue for tuberculosis and immunization services. CD programming will continue to assure this scope of services is supported by local health system capacity. In FY20, this offer was scaled with 40011-19 STD/HIV/Hep C Community Prevention Program, which is now 40010B-20, as part of divisional and program offer reorganizations that merge surveillance, disease investigations, disease intervention and control, including speciality clinical operations, and response evaluation. 40010B-20 provides immunization capacity. CD programming will continue to redesign during FY20 to improve efficiency and move forward foundational public health CD services.
