

Program #40010B - STD/HIV/Hep C Community Prevention Program 2/20/2019

Department: Health Department **Program Contact:** Kim Toevs
Program Offer Type: Existing Operating Program **Program Offer Stage:** As Requested
Related Programs: 40010A, 40012B, 40061
Program Characteristics: In Target

Executive Summary

Communicable Disease (CD) programming protects community health by responding to reportable communicable diseases with prompt disease investigation and limiting the spread of these diseases through disease control interventions. CD is a foundational public health program that upholds the State of Oregon communicable disease statutes through surveillance, disease investigations, disease intervention and control, and response evaluation. The STD/HIV/Hep C Community Prevention Program prioritizes reducing STD inequities among racial and sexual minority adolescents/young adults.

Program Summary

As part of foundational public health CD programming, the STD/HIV/Hep C Community Prevention Program uses population-focused approaches to prevent disease transmission. Locally, sexual health disparities persist by race/ethnicity, sexual orientation, and gender. For example, the syphilis rate for gay and bisexual men is as much as 200 times higher than for heterosexual men; and African Americans have higher rates of chlamydia, gonorrhea, and syphilis. A cornerstone of the program is designing services to reduce long-standing inequities among racial, ethnic, and sexual minority communities.

Program activities include: Partner Services - staff contact infected and exposed people and their sex/needle-sharing partners, link them to testing and treatment, and counsel for behavior change). STD Clinical Services - Medical staff provide low barrier, timely evaluation, treatment, and prevention counseling in a judgment-free, culturally-relevant manner. Staff provide HIV prevention medication (PrEP) to at-risk individuals (265 people accessed PrEP during 2018). Additionally, staff provide consultations and continuing medical education to medical providers in the community. The STD clinic is a designated training site for medical providers. Partnerships - Targeted community-based testing, health promotion, and condom distribution is provided through direct services and subcontracts with community partners. Collaboration with community organizations and health care systems enhance programmatic capacity. Epidemiology - Case investigation identifies population-level patterns of STD/HIV infection to inform health care and other systems to appropriately target resources and efforts. The program has a strong record of meeting national benchmark performance measures, and is nationally recognized for innovation and program coordination, as well as high client satisfaction across all demographics.

Performance Measures

Measure Type	Primary Measure	FY18 Actual	FY19 Purchased	FY19 Estimate	FY20 Offer
Output	Number of STD and HIV test clinical encounters	5,475	5,000	4,500	5,000
Outcome	Percent of all County gonorrhea/syphilis/HIV cases diagnosed through this program	15%	15%	15%	15%
Quality	Percent of syphilis/HIV cases investigated	75%	85%	85%	85%
Output	Number of patients initiated on HIV prevention medication (PrEP)	265	150	230	250

Performance Measures Descriptions

- 1) The STD clinic will move to a new location in April 2019. This may have an impact on the number of clients accessing the service.
- 2) Shows impact of program's ability to find, diagnose, and treat reportable STDs and capacity to target services to those at highest risk.
- 3) Priority diseases recommended by CDC (high priority gonorrhea also investigated although not included here).
- 4) HIV PrEP prevents infection in HIV negative individuals.

Legal / Contractual Obligation

ORS 433 mandates disease prevention & control. Ryan White CARE Act Part A requires local maintenance of effort for HIV prevention services. Oregon State DHS HIV Prevention contractual program elements. Oregon State DHS STD disease investigation assurances.

Revenue/Expense Detail

	Proposed General Fund	Proposed Other Funds	Proposed General Fund	Proposed Other Funds
Program Expenses	2019	2019	2020	2020
Personnel	\$323,806	\$2,455,702	\$246,341	\$2,615,009
Contractual Services	\$134,863	\$1,674,969	\$120,387	\$1,995,679
Materials & Supplies	\$81,003	\$43,109	\$92,726	\$54,970
Internal Services	\$242,365	\$495,208	\$479,605	\$406,863
Capital Outlay	\$0	\$0	\$0	\$80,000
Total GF/non-GF	\$782,037	\$4,668,988	\$939,059	\$5,152,521
Program Total:	\$5,451,025		\$6,091,580	
Program FTE	2.77	22.50	1.13	22.77

Program Revenues				
Indirect for Dept. Admin	\$238,795	\$0	\$0	\$0
Intergovernmental	\$0	\$4,318,688	\$0	\$4,802,221
Service Charges	\$0	\$350,300	\$0	\$350,300
Total Revenue	\$238,795	\$4,668,988	\$0	\$5,152,521

Explanation of Revenues

STD/HIV/Hep C is funded by an intergovernmental agreement between Multnomah County as the local public health authority (LPHA) and the Oregon Health Authority for HIV prevention and State Support for Public Health disease investigation. Federal CDC and HRSA grants also contribute to program revenues.

State Local Public Health Authority IGA: \$ 436,146
Federal STD Surveillance Network Grant (SSuN): \$ 75,000
HIV EIO: \$ 4,291,075
Medical Fees: \$ 350,300

Significant Program Changes

Last Year this program was: FY 2019: 40011-19 STD/HIV/Hep C Community Prevention Program

In FY20, this offer was scaled with 40010A-20 Communicable Disease Prevention and Control as part of divisional and program offer reorganizations that merge CD surveillance, disease investigations, disease intervention and control, including speciality clinical operations, and response evaluation. CD programming will continue to redesign during FY20 to improve efficiency and move forward foundational public health CD services, including assuring an appropriate scope of services is supported by local health system capacity.
