**Executive Summary**

The Student Health Center (SHC) program provides access to comprehensive preventive, primary, and mental healthcare for Multnomah County school-aged youth at eight health centers in four school districts and is part of the County's FQHC. Without this safety net, many school-aged youths would not receive necessary health care. After a two year planning process, the program is proposing to expand to address the large unmet need in the Reynolds School District by opening a SHC at Reynolds High School.

**Program Summary**

The SHC sites provide comprehensive preventive primary care for school-aged youth to keep them healthy and focused on learning. This is achieved through partnerships with schools, families, healthcare providers and community agencies.

This program offer creates a sustainable and operationally efficient program that maximizes health impact for children and youth in Multnomah County by opening a new SHC at Reynolds High School. The program offer supports staffing, transition activities, and community engagement with students and their families in the Reynolds School District as well as continuing to connect K-8 and middle schools to their nearest SHC. The program strives to ensure that basic physical and behavioral health needs of youth are met to help them attend, participate and remain in school.
