

**Program #40026 - FQHC-La Clinica de Buena Salud** FY 2025 Adopted

**Department:** Health Department **Program Contact:** Amaury Sarmiento  
**Program Offer Type:** Operating **Program Offer Stage:** Adopted  
**Related Programs:**  
**Program Characteristics:**

**Executive Summary**

Integrated Clinical Services (ICS) is the largest Federally Qualified Health Center (FQHC) in Oregon, providing high-quality, patient-centered health care and related services to communities across Multnomah County. La Clinica de Buena Salud (The Good Health Clinic), provides comprehensive, culturally appropriate primary care and behavioral health services to the underinsured and uninsured residents of NE Portland’s Cully Neighborhood and is part of the County’s FQHC. La Clinica was strategically located, in partnership with the local community, to provide culturally competent care and vital services to approximately 2,000 people each year.

**Program Description**

The Health Center welcomes all county persons, regardless of insurance status, ability to pay, or documentation status. Our health center prioritizes culturally and linguistically appropriate care, supporting patients in a way that works for them. Over sixty percent of our patients identify as people of color, and more than 40% are best served in a language other than English, including more than 100 different languages. Nearly 15% of our patients have no insurance, and 95% of our clients live below 200% of the Federal Poverty Guideline. All programs within ICS are committed to improving health outcomes, reducing health disparities and ensuring affordable, quality access to healthcare.

La Clinica de Buena Salud is designed as a Person Centered Medical Home. This model includes reducing barriers to access, integration of behavioral health services, providing continuity and coordination of services, and collaboration with community partners. La Clinica provides comprehensive, culturally appropriate services that include:

- Primary care services, including treatment of acute and chronic illnesses, behavioral health, family planning, prenatal and preventive services (well child, immunizations)
- Integrated pharmacy and lab services
- Wraparound services: Medicaid eligibility screening, medical interpretation, transportation, case management and health education

Although La Clinica was initially primarily served the Latinix community, the program has expanded and responded to the area's changing demographics which includes the Somali immigrants and refugees, Vietnamese, and Russian speaking families in the Cully neighborhood and beyond.

**Performance Measures**

Measure Type	Performance Measure	FY23 Actual	FY24 Budgeted	FY24 Estimate	FY25 Target
Output	Individual patients served	2,094	2,100	2,100	2,300
Outcome	Number of visits completed	7,094	9,901	8,216	7,400

**Performance Measures Descriptions**

## Legal / Contractual Obligation

The Health Center complies with CLIA (Laboratory accreditation) requirements, CCO contractual requirements, compliance with the Bureau of Primary Health 330 Grant (HRSA), and the Patient-Centered Primary Care Home (PCPCH) program. The Health Center is accredited under the Joint Commission (TJC) and follows accreditation guidelines.

All costs and revenues generated by this program must also comply with the HRSA FQHC requirements.

Federal \$ 3,024,590 - FQHC Medicaid Wrap, Medicaid FFS, CareOR FFS, APM  
\$ 64,235 - Charges for Services -Patient Fees

## Significant Program Changes

**Last Year this program was:** FY 2024: 40026 FQHC-La Clinica de Buena Salud

La Clinica de Buena Salud will be relocating in FY25 to the new PCC Opportunity Center located on the Corner of NE Killingsworth and 42nd Ave.

The new clinic location will have Dental and Pharmacy Services co-located with Primary Care. These are services that the Cully neighborhood needed. We expect an increase clients served with the move to the new location.

Primary Care appointment lengths previously were set at 15 and 20 minutes. Medical provider appointment now include 30 minute appointment lengths for visits requiring more time. This change may decrease visit numbers.
