The clinic provides comprehensive, culturally appropriate services which include treatment of acute and chronic illnesses, behavioral health, family planning, prenatal and preventive services (well child, immunizations) primary care and enabling services and is intended to serve as a Patient Centered Primary Care Home (PCPCH) for residents of Southeast Portland. This includes reducing barriers to access, integration of behavioral health services, providing continuity and coordination of services and collaboration with community partners. Ancillary support services are operationally integrated and include pharmacy and lab. Enabling services include Medicaid eligibility screening, medical interpretation, transportation, case management and health education. The MCHD ICC will be conveniently co-located with pharmacy and dental, who will also be expanding to offer same day dental emergency access. The MCHD ICC will serve existing MCHD clients, as well as the community at large, providing both immediate and full scope primary health care. The ICC will be staffed by two providers, a nurse, clinical support staff, lab, eligibility and enrollment services. Clients who are not existing MCHD clients will be offered OHP and other coverage enrollment assistance and also a primary care medical home within MCHD Health Centers.
