Program Characteristics:

Executive Summary

Integrated Clinical Services (ICS) is the largest Federally Qualified Health Center (FQHC) in Oregon, providing high-quality, patient-centered health care and related services to communities across Multnomah County. Southeast Health Clinic (SEHC) provides comprehensive, culturally appropriate primary care and behavioral health services to 3,200 people each year in the Southeast Multnomah County communities. Southeast Health Center is centrally located to serve persons living in the area as well as the central region and clients living downtown (many who were previously a Westside Clinic patient).

Program Description

The Health Center welcomes all county persons, regardless of insurance status, ability to pay, or documentation status. Our health center prioritizes culturally and linguistically appropriate care, supporting patients in a way that works for them. Over sixty percent of our patients identify as people of color, and more than 40% are best served in a language other than English, including more than 100 different languages. Nearly 15% of our patients have no insurance, and 95% of our clients live below 200% of the Federal Poverty Guideline. All programs within ICS are committed to improving health outcomes, reducing health disparities and ensuring affordable, quality access to healthcare.

Southeast Health Center is a Person Centered Medical Home. This model includes reducing barriers to access, integration of behavioral health services, providing continuity and coordination of services, medication assisted therapy (MAT) and collaboration with community partners. SEHC provides comprehensive, culturally appropriate services that include:

- Primary care services, including treatment of acute and chronic illnesses, behavioral health, family planning, prenatal and preventive services (well child, immunizations)
- Integrated pharmacy, dental, and lab services
- Wraparound services: Medicaid eligibility, interpretation, transportation, case management and health education.

Race and ethnicity of SEHC Primary Care clients reflect 15.3% Asian, 9% Black, 1% American Indian and 1.5% Pacific Islander. A key population that SEHC serves is the homeless population that continues to grow in the SEHC region, noting a 22.1% increase from 2017 to 2019. Our non-binary population who report Intimate Partner violence is experiencing a rise in houselessness over 186.7% increase (.4% to 1.1%) (2019 PIT report). Using wrap around services for our clients experiencing houselessness that include intensive case management/navigation services, addressing food insecurities (food banks, CSA partnerships for health with local farms), and referrals to community partnerships in addition to primary/specialty care is critical.

Performance Measures

Measure Type	Primary Measure	FY22 Actual	FY23 Budgeted	FY23 Estimate	FY24 Offer
Output	Number of patients served	2,320	3,400	3,400	3,500
Outcome	Number of visits completed	5188	7,370	10,500	7,400
Outcome	Number of Mobile Clinic visits completed (medical and dental)	N/A	N/A	N/A	3,500

Performance Measures Descriptions

Output: Individual Patients Served. This measure describes the number of unique clients assigned to this site and have received clinical care within the last 12 months.
Outcome: This is the total number of in clinic visits including PCP, BHP, and Nursing Specialty Care on site. Higher visit volumes means the clinic is better able to address the complex medical needs of the community more effectively.

Legal / Contractual Obligation

The Health Center complies with CLIA (Laboratory accreditation) requirements, CCO contractual requirements, compliance with the Bureau of Primary Health 330 Grant (HRSA), and the Patient-Centered Primary Care Home (PCPCH) program. The Health Center is accredited under the Joint Commission (TJC) and follows accreditation guidelines.

All costs and revenues generated by this program must also comply with the HRSA FQHC requirements.

 \$ 504,758 - FQHC Mobile Health Mcaid/Mcare

Significant Program Changes

Last Year this program was: FY 2023: 40027 FQHC-Southeast Health Clinic

The Mobile Clinic aims to provide medical, dental and other health services to clients experiencing homelessness, in addition to other marginalized populations, by working with community partners across Multnomah County. The Mobile Clinic will assist these populations with OHP and other health services enrollment. The mobile clinic adds 6.0 fte and SEHC added 1.5 fte Medical Assistant, 0.5 Office Assistant 2 and 1.2 Nurse Practitioner positions.
