Executive Summary

Integrated Clinical Services (ICS) is the largest Federally Qualified Health Center (FQHC) in Oregon, providing high-quality, patient-centered health care and related services to communities across Multnomah County. Rockwood Community Health Clinic provided comprehensive, culturally appropriate primary care and behavioral health services to 3910 patients this year.

Program Description

The Health Center welcomes all county persons, regardless of insurance status, ability to pay, or documentation status. Our health center prioritizes culturally and linguistically appropriate care, supporting patients in a way that works for them. Over 56 % of our patients identify as people of color, and more than 54% are best served in a language other than English, including more than 100 different languages. Nearly 15% of our patients have no insurance, and 68% of our clients live below 200% of the Federal Poverty Guideline. All programs within ICS are committed to improving health outcomes, reducing health disparities and ensuring access to healthcare. Rockwood Community Health Clinic (RCHC) is designed as a Patient-Centered Medical Home (PCMH). This model includes reducing barriers to access, integration of behavioral health services, providing continuity and coordination of services, and collaboration with community partners. RCHC provides comprehensive, culturally appropriate services that include:

- Primary care services, including treatment of acute and chronic illnesses, behavioral health, family planning, prenatal and preventive services (well child, immunizations)
- Integrated pharmacy and lab services
- Wraparound services: Medicaid eligibility screening, medical interpretation, transportation, case management and health education.

Over the past 12 months, the RCHC clinic saw 11,431 patients with services provided or interpreted in 16 plus languages. RCHC plays a significant role in providing safety net medical services to residents in a historically underserved community. The clinic provides culturally appropriate care to a diverse population with the largest groups served being Hispanic (32%), and White (46%). The remaining 22% of our patients identify as Asian, Black, Karen, Burmese, Russian, Somali, Zomi, Dari, Farsi, Nepali, Swahili, and Rohingya.

One-time-only facilities program offers for Rockwood were funded in the FY 2024 Budget year related to ongoing repairs and investments into the building following its acquisition in January 2023 (78237-78239).
