Program Characteristics:
Executive Summary

This program is responsible for providing all financial reporting and forecasting, grant accounting, budget development and monitoring, and accounts payable for the Health Department. They are liaisons for the department with the Department of County Management (e.g. Budget Office, Central Finance) and are responsible for adhering to County budget, financial and administrative procedures, policies and practices.

Program Summary

This program manages all of the financial reporting, billing and collection services for grant-funded programs. It prepares and reviews the Health Department's financial reports and forecasting, as well as develops and maintains the Department's budget. Accounts Payable and travel and training services are also provided.

Budget and Finance works closely with county staff in the CFO's office, Budget Office, and Central Finance. Compliance with a multitude of federal, state and county financial policies and procedures is a key responsibility of this division.

Staff reductions will put some of these activities at risk. Resulting in late filings, slower processing of payments and collections. Late or inaccurate financial reporting will make it difficult for the department to monitor its financial performance.

Significant Program Changes

Last Year this program was: FY 2019: 40040-19 Budget & Finance

The new Workday system is changing the way business functions are performed. The Business Operations division is still evaluating and understanding what staffing changes will be required to optimize Workday.
