Explanation of Revenues

Significant Program Changes

Last Year this program was: FY 2021: 40041 Medical Accounts Receivable

2020 presented our division and staff with new challenges including remote working, lack of childcare, school closures, wildfires, continued racial injustice and a divisive national election - these and other challenges had significant impacts on our personal and professional lives. Our teams have adeptly responded to these challenges by implementing new workflows, building and strengthening relationships and applying an equity lens to decision making.

The Medical Accounts Receivable team identified changes in billing requirements and updates processes as payors updated reimbursement models for telemedicine and clinics adjusted their services.
