

Program #40050A - Corrections Health Multnomah County Detention Center (MCDC) 4/21/2021

Department: Health Department **Program Contact:** Michael Seale
Program Offer Type: Existing Operating Program **Program Offer Stage:** As Proposed
Related Programs:
Program Characteristics:

Executive Summary

Corrections Health, Multnomah County Detention Center houses 448 adults and is composed of booking, 4th floor special housing, mental health housing and three floors of discipline and evaluation housing. Approximately 100 US Marshall (USM) detainees are housed in the system daily. Over 36,000 individuals are cared for each year with over 50% having serious unstable and chronic health conditions, such as diabetes, kidney failure, infections, alcohol and drug withdrawal, and major mental/behavioral illnesses.

Program Summary

The core responsibility of Corrections Health is to provide a constitutional and community level of health care (medical, mental health and dental) to the individuals entrusted to our care. That care is delivered to a population disproportionately involved in the justice system. As health risk and diseases rarely impact all communities equally, the work of Corrections Health addresses the groups disparately impacted. Recruitment and hiring practices have been refined to promote a workforce that more closely resembles the demographics of the population we serve. Further efforts will be made in FY22 to evaluate policies, procedures and practices to ensure that an equity approach is used whenever possible while maintaining appropriate access to essential care.

This offer represents Corrections Health MCDC basic administration, support, booking and mental health care delivery programs. MCDC averages 40+ newly booked individuals each day. Nurses (24 hours/7 days a week) evaluate each detainee to identify critical health issues and make plans for scheduled care for stabilization. Screening includes obtaining health history for both acute and chronic disease, including mental health care, substance abuse, communicable disease evaluation and current prescriptions. As a result of those evaluations, treatments, medications, provider appointments, mental health referrals and housing decisions are made. In addition, Corrections Health nursing staff assess individuals brought to the jail before being accepted into custody--that assessment ensures that serious medical and/or mental health issues are appropriately addressed in a hospital setting before booking. Suicide and self harm symptom identification is an essential mental health function. The mental health team is composed of a psychiatrist, PMHNPs, mental health consultants and mental health nurses for evaluation, monitoring and treatment for the many mentally ill clients booked into jail.

Performance Measures

Measure Type	Primary Measure	FY20 Actual	FY21 Budgeted	FY21 Estimate	FY22 Offer
Output	Average # of Reception Screening ("EPF"--Entry Progress Form) completed in one month	1,900	1,820	1,820	1,200
Outcome	% of positive screenings resulting in a referral to the mental health team per year	30%	35%	35%	35%

Performance Measures Descriptions

Measure 1: Captures monthly intake screenings for incoming detainees--the measure does not correlate with the static jail population and more accurately reflects incoming patient volume.
Measure 2: Captures initial interview information and how many clients are referred for mental health care

Legal / Contractual Obligation

Necessary health care for incarcerated individuals is a right because they do not have the freedom to obtain care on their own. Appropriate access to care and timely evaluation by a health professional is mandated by the 4th, 8th and 14th amendments. When serious health needs are not adequately addressed by professionals, that deliberate indifference to medical needs may bring harm to individuals entrusted to our care and increase liability for the County. Corrections Health is bound by ethical standards to provide unbiased care to all individuals based on community standards of care.

Revenue/Expense Detail

	Adopted General Fund	Adopted Other Funds	Proposed General Fund	Proposed Other Funds
Program Expenses	2021	2021	2022	2022
Personnel	\$3,304,337	\$0	\$3,696,394	\$0
Contractual Services	\$156,683	\$0	\$180,000	\$0
Materials & Supplies	\$317,053	\$0	\$9,394	\$0
Internal Services	\$269,488	\$0	\$305,779	\$0
Total GF/non-GF	\$4,047,561	\$0	\$4,191,567	\$0
Program Total:	\$4,047,561		\$4,191,567	
Program FTE	22.10	0.00	19.20	0.00

Program Revenues				
Total Revenue	\$0	\$0	\$0	\$0

Explanation of Revenues

As a result of the current laws that govern the responsibilities of governmental agencies in the care of detained individuals, Corrections Health is unable to bill for services from Medicare, and Medicaid. These rules and laws are under review nationally to determine if additional revenue sources can be made available to jails. Corrections Health no longer receives revenue through a co-pay system. Adults in custody are not charged a fee for health care services.

Significant Program Changes

Last Year this program was: FY 2021: 40050A Corrections Health Multnomah County Detention Center (MCDC)

Significant changes for FY22 in Program Offers 40050A, 40050B & 40050C:

Given a general reduction in client population, a reduction in personnel could be attained in FY 2022 without impacting clinical quantity or quality provided to the adults in custody at MCDC. Reductions across all three program offers above include; 1.00 MA FTE, .9 LPN FTE, .1 CNA FTE and 3.8 CHN FTE.

The other significant change in this offer is to reduce the FTE of the current Deputy Medical Director who is also concurrently serving as the Director of Corrections Health, so that administrative and leadership adjustments can be made within the Division to allow for greater leadership opportunities within the Division, to enhance opportunities for greater leadership equity and to promote adequate succession planning. The Deputy Director FTE is reduced from 1.0 FTE to 0.80 FTE.
