Executive Summary

Corrections Health Multnomah County Inverness Jail houses 860 men, women, inmate workers for inside and outside work crews, sentenced individuals and those awaiting trial who are being medically stabilized with treatment. Approximately 100 USM detainees are housed in the system daily. Over 36,000 individuals are cared for each year with over 50% having health conditions, such as diabetes, kidney failure, infections, alcohol and drug withdrawal and mental illnesses.

Program Summary

MCIJ health personnel care for all those detainees transferred from MCDC to continue or begin treatment until disposition of their legal process is complete. Sentenced and non-sentenced detainees have a plan of care in place to maintain treatment of their health conditions.

Trained, skilled professional staff provide effective screening, illness identification, evaluation and effective targeted treatment through a system of policies and procedures that reflect the standard of care in the community and equivalent to other correctional facilities across the country. This offer represents MCIJ base and clinical services which includes administrative, support, diagnostic and clinical services. Three general provider rooms, one dental operator, one mental health and one triage/treatment room are available for office visits for clients. Triage nurses evaluate client care requests and refer to nurses, the mental health team, providers or dentists for care according to the medical need. Support services include X-ray and lab services. This area also supports the nursing station, medication room, central records room and administrative offices for various personnel. By providing 24/7 skilled health care on site for this vulnerable, underserved population, the high cost of outside medical care is minimized. MCIJ is also the center (HUB) for the state inmate transport system. An average of 20-100 inmates stay overnight and receive health care.

Mental health services are also provided to inmates at MCIJ. Inmates typically are more stable in this jail which allows for mental health groups to occur several times per week. In addition to groups, individual sessions and medication management occurs.

Performance Measures Descriptions

Measure 1: Reflects care delivered in the entire facility and includes both medical and mental health requests.
 Measure 2: Based on NCCHC accreditation requirements, we are tracking 14-day history and physical assessments.

Legal / Contractual Obligation

Necessary health care for incarcerated individuals is a right because they do not have the freedom to obtain care on their own. Appropriate access to care and timely evaluation by a health professional is mandated by the 4th, 8th and 14th amendments. When serious health needs are not adequately addressed by professionals, that deliberate indifference to medical needs may bring harm to individuals entrusted to our care and increase liability for the County. Corrections Health is bound by ethical standards to provide unbiased care to all individuals based on community standards of care.

Explanation of Revenues

As a result of the current laws that govern the responsibilities of governmental agencies in the care of detained individuals, Corrections Health is unable to bill for services from Medicare, and Medicaid. These rules and laws are under review nationally to determine if additional revenue sources can be made available to jails. A co-pay system is in place that charges the inmate accounts nominal fees only for detainee-requested medical and dental provider evaluations. No fees are charged for mental health requests or mental health provider evaluations. Provider-ordered treatments, screenings, diagnostic tests and communicable diseases tests are performed at no charge. Necessary clinical care is provided regardless of the detainee's ability to pay.
