**Executive Summary**

Corrections Health Multnomah County Inverness Jail houses 860 men, women, inmate workers for inside and outside work crews, sentenced individuals and those awaiting trial who are being medically stabilized with treatment. Approximately 40-60 USM detainees are housed in the system daily. Over 36,000 individuals are cared for each year with over 50% having health conditions, such as diabetes, kidney failure, infections, alcohol and drug withdrawal and mental illnesses.

**Program Summary**

Trained, skilled professional staff working 24/7 provide effective screening, illness identification, evaluation and effective targeted treatment through a system of policies and procedures that reflect the standard of care in the community and equal to other correctional facilities across the country.

Corrections Health provides a variety of health, mental health and dental services to 430 men and women in dorms 12-18 at MCIJ. Diverse staff work 24/7 to provide evaluation, treatment, referral, medication management, emergency response, communicable disease identification and suicide prevention. A 10 bed medical unit provides skilled nursing and protective isolation in house, and utilization of the unit prevents a stay in a hospital at a much greater cost. Chronic disease monitoring is key to prevent hospitalizations for our clients with diabetes, hypertension, seizures, heart disease and infections. Special OB/GYN and orthopedic clinics operate on-site. In partnership with custody staff, Corrections Health responds to emergencies and screens for communicable disease. This health care is delivered effectively through providing the right care in the right setting.

Mental health services are also provided to inmates at MCIJ. Inmates are more stable in this jail which allows for mental health groups to occur several times per week. In addition to groups, individual sessions and medication management occur.

**Performance Measures**

Measure Type	Primary Measure	FY17 Actual	FY18 Purchased	FY18 Estimate	FY19 Offer

## Legal / Contractual Obligation

Necessary health care for incarcerated individuals is a right because they do not have the freedom to obtain care on their own. Appropriate access to care and timely evaluation by a health professional is mandated by the 4th, 8th and 14th amendments. When serious health needs are not adequately addressed by professionals, that deliberate indifference to medical needs may bring harm to individuals entrusted to our care and increase liability for the County. Corrections Health is bound by ethical standards to provide unbiased care to all individuals based on community standards of care.

## Explanation of Revenues

As a result of the laws that govern the responsibilities of governmental agencies in the care of detained individuals, Corrections Health is unable to bill for services from Medicare and Medicaid. These rules and laws are under review nationally to determine if additional revenue sources can be made available to jails. A co-pay system is in place that charges the inmate accounts nominal fees for detainee-requested evaluations and clinic visits. Provider-ordered treatments, screenings, diagnostic tests and communicable disease tests are provided at no charge.
