

Legal / Contractual Obligation

Necessary health care for incarcerated individuals is a right because they do not have the freedom to obtain care on their own. Appropriate access to care and timely evaluation by a health professional is mandated by the 4th, 8th and 14th amendments. When serious health needs are not adequately addressed by professionals, that deliberate indifference to medical needs may bring harm to individuals entrusted to our care and increase liability for the County. Corrections Health is bound by ethical standards to provide unbiased care to all individuals based on community standards of care.

Explanation of Revenues

As a result of the current laws that govern the responsibilities of governmental agencies in the care of detained individuals, Corrections Health is unable to bill for services from Medicare, and Medicaid. These rules and laws are under review nationally to determine if additional revenue sources can be made available to jails. A co-pay system is in place that charges the inmate accounts nominal fees only for detainee-requested medical and dental provider evaluations. No fees are charged for mental health requests or mental health provider evaluations. Provider-ordered treatments, screenings, diagnostic tests and communicable diseases tests are performed at no charge. Necessary clinical care is provided regardless of the detainee's ability to pay.
