

Program #40070B - Mental Health Crisis Assessment & Treatment Center (CATC) Restoration 3/4/2020

Department: Health Department **Program Contact:** Neal Rotman
Program Offer Type: Existing Operating Program **Program Offer Stage:** As Requested
Related Programs:
Program Characteristics: Out of Target

Executive Summary

The Behavioral Health Division has identified alternatives to inpatient hospitalization as a missing service in the system of care. The Crisis Assessment and Treatment Center (CATC) offers 16 beds of short-term mental health treatment in a secure locked environment as a lower cost alternative to hospitalization for over 300 clients per year. Facility staffing includes physical and mental health professionals and peer support specialists. Due to CGF budget reductions in Fiscal Year 2021, this offer will keep current service capacity whole.

Program Summary

Crisis Assessment Treatment Center Subacute is a short-term stabilization program for those individuals who require a secure alternative to incarceration or hospitalization. It is a critical component in a full continuum of mental health services. Although it works with other community agencies that provide long term-care, the mission of the sub-acute facility is brief intervention when a person becomes a danger to themselves or others due to his/her mental illness. The target length of stay is 10 days. Since the individual remains linked to the community, length-of-stay is minimized and the person is less likely to lose critical recovery supports including Medicaid eligibility and housing. Subacute care is less expensive than hospitalization. Incarceration hinders recovery and strains the resources of courts and the jail. As part of a best practice model for facilities of this type, the proposed treatment team includes consumer positions on staff (Peer Support Specialists) to provide mentoring and linkage to services in the community. These positions are salaried members of the treatment team.

A reduction in County General Funding will reduce the number of funded beds from 3 to 1 for those individuals who do not have Medicaid funding via Health Share of Oregon. This will negatively impact those uninsured or under insured Multnomah County residents that would benefit from an inpatient hospital step-down or diversion from emergency psychiatric services to a sub-acute secure setting. This will impact approximately 30 indigent individuals annually.

Performance Measures

Measure Type	Primary Measure	FY19 Actual	FY20 Budgeted	FY20 Estimate	FY21 Offer
Output	Number of admissions that are unique Multnomah Mental Health members				225
Outcome	Number of admissions that are Non-HSO Multnomah Members				36

Performance Measures Descriptions

Legal / Contractual Obligation

The Multnomah County Community Mental Health Program is contracted with the state to provide a mental health crisis system that meets the needs of the community.

Oregon Health Authority Intergovernmental Agreement for the Financing of Community Additions and Mental Health Services.

Health Share of Oregon Risk Accepting Entity Participation Agreement.
