Executive Summary

This program includes Mental Health Residential Services and Transitional Housing. Residential treatment programs include: Secure Residential Treatment Facilities (SRTFs), Residential Treatment Homes (RTHs), Adult Foster Care Homes and a range of semi-independent supported housing programs. Transitional Housing focuses on individuals who require assistance obtaining permanent housing while addressing their mental health needs. Transitional housing allows the individual a short-term stable housing opportunity to decrease the likelihood that they will need crisis and acute services.

Program Summary

Residential Services provide mental health residential treatment to persons who suffer from severe mental illness, and who require structured care, foster care, and mental health rehabilitative services. Populations served include those who are AMHI-eligible, those who are under the jurisdiction of the Psychiatric Security Review Board, and those who meet neither criteria, but whose mental illness prevents them from functioning safely in the community. Most clients enter the Residential system of care through the Oregon State Hospital, though some enter through the community, i.e., acute care and outpatient mental health provider referral.

Residential Services staff provides regulatory oversight to licensed residential treatment programs, monitoring and supporting the treatment programs' compliance with OARs. Residential staff also provides monitoring, oversight and technical/clinical consultation to treatment programs in the areas of client health, safety and welfare. This typically occurs in the context of scheduled and unscheduled consultation, problem-solving, participation in client staffings, review of appropriateness of unplanned discharges, and monitoring and enforcement of client rights. As a part of oversight of safety, health and welfare, Residential Services is responsible for review of program incident reports, referral to protective services where appropriate, and for conducting Critical Incident Reviews with providers. In its role as the regulatory arm of the state, Residential Services also assists state licensors with licensure inspections and quality audits of programs.

- 376 persons referred to 86 residential providers, with 165 persons accepted (44%)
