**Executive Summary**

Gambling addiction treatment uses evidence-based practices in an outpatient setting to provide treatment to persons diagnosed with mild, moderate, or severe gambling addiction. Problem gambling prevention programming applies evidence based strategies to increase awareness among County residents that gambling is an activity that carries risk and that treatment and prevention resources are available.

**Program Description**

Multnomah County's Problem Gambling Services (PGS) are guided by a public health approach that considers biological, behavioral, and economic issues. Current Oregon prevalence rates show approximately 2.6% of adult Oregonians could have a gambling disorder - over 100,000 Oregonians and 20,000 Multnomah County residents. Problem Gambling Services includes both prevention and treatment resources, placing emphasis on quality of life issues for the person who gambles, their family members, and communities. Problem Gambling (PG) prevention programming focuses on increasing awareness of PG as an issue and develops strategies for the prevention of PG disorders. PG treatment services focus on relieving initial client stress and crisis, supporting the client and family members in treatment, and assisting the family to return to a level of healthy functioning. Treatment assists the gambler and their family with managing money/finances, rebuilding trust within the family, and maintaining recovery. The Multnomah County provider network includes Lewis & Clark College, Volunteers of America, and Voices of Problem Gambling Recovery. In FY23, we expanded PGS to include new staff in both prevention and treatment. The PGS will now have one FTE dedicated to care coordination for individuals seeking or referred into treatment for problematic gambling. Our PGCC will dedicate their time to expanding our provider network, including focused attention on culturally specific providers. In addition, our prevention programming will increase capacity by hiring interns to focus on developing problem gambling prevention messaging that are culturally and linguistically appropriate.
