Executive Summary

Multnomah County’s Integrated Clinical Services (ICS) is the largest Federally Qualified Health Center in Oregon, providing high-quality, patient-centered health care and related services to communities across Multnomah County. Together, our eight primary care clinics, seven dental clinics, nine student health centers, seven pharmacies, and laboratory services serve more than 60,000 patients per year, with a focus on people who otherwise have limited access to health care. Considering the potential risk of COVID-19 to employees and patients, the Integrated Clinical Services COVID-19 Response is essential to ensure the safety of all that work and receive services with ICS.

Program Summary

The Health Center welcomes all county persons, regardless of insurance status, ability to pay, or documentation status. Our health center prioritizes culturally and linguistically appropriate care, supporting patients in a way that works for them. Sixty percent of our patients identify as people of color, and more than 40% are best served in a language other than English, including more than 100 different languages. Nearly 20% of our patients have no insurance, 95% of our clients live below 200% of the Federal Poverty Guideline, and nearly 2,000 of our patients report experiencing homelessness. All programs within ICS are committed to improving health outcomes, reducing health disparities and ensuring affordable, quality access to health care.

The ICS Logistics and COVID-19 Response supports safe and effective services for all ICS employees and patients by ensuring adequate infrastructure, resources, and supplies to build capacity both within and outside of normal clinical operations, such as drive-through testing and vaccination clinics. These activities are supported by funding from the American Rescue Plan Act (ARPA) for COVID-19 vaccination, response, and treatment capacity; maintaining and increasing capacity of Health Center services; recovery and stabilization of Health Center workforce and infrastructure to address pent-up demand and enhancement of service delivery. Expenditures will include staffing and infrastructure, software and IT solutions, equipment and supplies, patient and staff experience, and other innovations in support of services for our patients.

Performance Measures

Measure Type	Primary Measure	FY21 Actual	FY22 Budgeted	FY22 Estimate	FY23 Offer
Output	Percent of active age-appropriate patients who have been offered a vaccine	N/A	60%	60%	60%
Outcome	COVID-19 vaccine rates for patients self-identifying as BIPOC	N/A	60%	60%	60%

Performance Measures Descriptions

Output: This measure indicates the percentage of our established patients who we have vaccinated or been offered a vaccine. **Outcome:** This measure indicates that the Health Center outreach efforts and community engagement has increased vaccine administration within communities who are experiencing higher disparities in COVID-19 infection and vaccination rates.

Significant Program Changes

Last Year this program was:

This program falls under the Public Health Emergency Response priority. Integrated Clinical Services will provide COVID-19 vaccination, response, and treatment capacity; maintaining and increasing capacity of Health Center services; recovery and stabilization of Health Center workforce and infrastructure to address pent-up demand and enhancement of service delivery. Several additional temp/LD positions will be funded under this program offer/ARPA Revenue in FY23.
