John Hartsock – Optional Information:

I would appreciate the opportunity to represent you. I have lived in the District for the past 24 years and have served on the District's Budget Committee and facility committees.

I would propose that the Board address the following issues:

I: Build a sense of urgency in the community, among staff members, families and students. Communicate where change needs to occur and why.

II: Recognize that trust, morale, and relationships with staff, students and the community make a difference in keeping children in school. The focus has to be on helping students become career and/or college ready; decisions on programs and budget have to focus on making that happen. The board and administration have to follow through in everything they say and do, they need to talk about how it makes a difference in getting our children to graduation.

III: There has to be excellent instruction based on planning to meet high standards for all students. Resources – and there are never enough /nor will there be – need to be focused on results in instruction that improves achievement. Make decisions based on where the District can get the most for their investments of people, time, and money. Put resources where they will produce results. Measure and report those results.

In short, the school board should serve a pivotal role by setting high goals, build the culture and deploy resources where they promise the best results. Hold the data in front of the community and celebrate successes, but don't be afraid to name the challenges and work toward overcoming them.
