

Attachment 5 – Requested Information

Proposer must provide resumes for all proposer staff who would perform services described within the RFP.

Proposer staff resumes must provide a concise and detailed description of staff training, education, and professional experience directly relevant to services described within the RFP.

Proposers understand that proposer staff resumes and staff experience will be a substantial factor in evaluating proposals. If a proposer is awarded a contract under this RFP, but is subsequently unable to provide staff with the training, education, and experience of those staff whose resumes were submitted as part of its proposal, then proposer acknowledges that the County may elect to terminate the contract immediately upon such a finding.
