Executive Summary

Multnomah Project Independence (MPI) provides services to people with disabilities age 19 to 59 who require in-home and other support services to remain independent in their homes, but who are not eligible for other public supports such as Medicaid or Oregon Project Independence (OPI). MPI served 126 people in FY14. Case management services are focused on both short-term and ongoing intensive supports and consumer-centered services with the goal of supporting clients' self-direction and self-management. In FY16 MPI will be aligned with the newly expanded OPI for adults w/disabilities program.

Program Summary

Through the Multnomah Project Independence program (MPI), Aging, Disability and Veterans Services Division (ADVSD) provides in-home services and supports for low-income younger adults with disabilities who are at risk for nursing facility placement, homelessness or abuse, and who do not qualify for other public services. The program includes case management and supports for both short-term and ongoing interventions to access resources and stabilize individuals. Other funded services include in-home services, home-delivered meals and transportation. The program closely integrates MPI case management with ADVSD Adult Protective Services, Emergency Services, Long Term Care Service Intake and Oregon Project Independence. Short-term intensive case management is provided to support stabilization and self-management by clients. Services are prioritized to individuals who meet the risk criteria listed above and are not eligible for other publicly-funded case management support.

For FY16 ADVSD is proposing to align case management staffing and client services for MPI with the newly expanded Oregon Project Independence (OPI) program serving adults with disabilities age 19 to 59. This will reduce staffing costs for the program while ensuring that clients' services are maintained.
