GRADING AND EROSION CONTROL PERMIT

CASE FILE: T1-02-005

November 17, 2003

Request: Grading and Erosion Control Permit application for grading activities associated with construction of a new SFR, driveway and retaining walls.

Location: 209 NE 365th, Corbett OR 97019
TL 500, Sec 35, T1N, R4E, W.M.
Tax Account #R298900400

Applicant: Patrick J. Conrad

Owner: Patrick J. Conrad

ORDINANCE REQUIREMENTS:

Applicable standards for this permit can be found in Chapter 29.300 et seq., Grading and Erosion Control Code of the Multnomah County Building and Specialty Codes, copies of which are available at our office.

MODIFICATIONS AND LIMITATIONS:

1. This permit is based on written narrative(s) and plan(s) provided by the applicant (attached). No development shall occur under this permit other than that which is specified within these documents. It shall be the responsibility of the property owner to comply with these documents and the limitations described herein.
2. Supplemental erosion control techniques may be required if turbidity or other down slope erosion impacts result from on-site grading work. The Portland Building Bureau (Special Inspections Section), the local Soil and Water Conservation District, or the U.S. Soil Conservation Service can also advise or recommend measures to respond to unanticipated erosion effects.
3. Unless amended with a building permit issued by the City of Gresham, the retaining wall(s) shall be constructed to the specifications prepared by Matthew V. Nava, P.E., dated 11-09-01 (attached).
4. On-site disposal of construction debris is not authorized under this permit. Spoil materials removed off-site shall be taken to a location approved for the disposal of such material by applicable Federal, State and local authorities.

5. The property owner is responsible for removing any sedimentation caused by development activities from all neighboring surfaces and/or drainage systems. If any features within adjacent public right-of-way are disturbed, the property owner shall be responsible for returning such features to their original condition or a condition of equal quality.
6. Applications for building permits may be made with the City of Gresham. When ready to have building permits signed off, call the Staff Assistant Planner, Adam Barber, at (503)-988-3043, for an appointment for review and approval of the conditions and to sign the building permit plans. Multnomah County must review and sign off building permit applications before they are submitted to the City of Gresham. Three (3) sets each of the site plan and building plan are needed for building permit sign-off.

Prior to any land disturbing activities:

1. The property owner shall maintain best erosion control practices through all phases of development. Erosion control measures are to include the installation of sediment fences/barriers at the toe of disturbed areas and post construction re-establishment of ground cover. Straw mulch, erosion blankets, or 6-mil plastic sheeting shall be used as a wet weather measure to provide erosion protection for exposed soils. All erosion control measures are to be implemented as prescribed in the current edition of the *Erosion Prevention Sediment Control Plans Technical Guidance Handbook*, copies of which are available for purchase at our office, or through the City of Portland. **The property owner shall verify that all erosion control measures are properly installed and in working order prior to initiating grading activities.**

Follow up requirements after grading:

1. The property owner shall contact the case planner at the Land Use Planning Division at (503) 988-3043, to arrange for a site inspection after the project is complete.
2. Grading and erosion control activities described and approved under this permit shall be completed within two (2) years from the date of this approval.

Issued by:

Signed: Adam Barber, Assistant Planner
For: Kathy Busse, Planning Director

Date: Monday, November 17, 2003
