Re: Investment Portfolio Results for November 2015

The County Investment Pool's annualized earnings rate for November was .43%. This was a nineteen basis point decrease from the previous month's return, .62%. The drop in rate of return each November is caused by the inflow of property tax collections, about \$1.3 billion, which increases our low yielding cash holdings. The year-to-date rate of return for Fiscal Year 2015 is .52%.

The U.S. Treasury 90-day T-Bill yield, at the end of November was .22%. This was an increase of 14 basis points from the end of October. This increase was due to the market anticipation of a rate hike by the Federal Reserve Board (FRB) at its December meeting.

The annualized earnings rate for the State's Local Government Investment Pool was .54%.
