PRIOR GOVERNMENTAL EXPERIENCE: None

Please no donations. I have spoken with thousands of well informed registered voters of whom have enthused great anticipation of any candidate exhibiting a compassionate narrative extolling the authenticity of exceptional leadership. If elected, I promise 25% of the chair salary to charity.

Is it imperative I serve the will of the people? Absolutely! I look forward to meeting you soon!

Real Property Tax priorities necessitate realignment congruent to modernization of antiquated building permit policies & procedures.

Public Housing Authority must remand to county control; includes homeless constituency. No more segregation. A significant majority of constituents do not live in Portland.

Mental Health Services: Realign safety needs for staff & client monitoring protections.

Elder Care: Sites require commercial kitchens & resources. Legislation affecting East Portland real property seizures under the guise of services rendered is unacceptable.

Corrections: Lack of adequate incarcerated population staffing & services.

Parole & Probation: Staffing & case overload reform necessary.

County Bridges Tolling: Unacceptable. Stealth measures implausible.

Procurement Accounts: Reorganization necessary.

Public Schools: CORE Curriculum vitae circumvents traditional achievement outcomes.

Pharmaceuticals: Medication protocol directives costly.

Human Services: System reorganization.

PRIOR GOVERNMENTAL EXPERIENCE: Portland City

Commissioner, Oregon Juvenile Justice Commission, State Board of Higher Education

COMMUNITY INVOLVEMENT: Northeast Emergency Food Program, Friends of Trees, Oregon League of Minority Voters, Oregon Community Children and Youth Services Commission, Youth Employment and Empowerment Coalition

Jim Francesconi knows it takes more than words to make the world better. It takes bold action.

IT STARTS WITH JOBS:

"Jim **made government work smarter** by insisting public construction jobs go to local people. Now my family, and many others, can count on a living wage job."

Amber McCoy, carpenter

As County Chair, Jim will require local hiring and **bring oversight** to County contracting so we get what we're paying for.

IMPROVING SCHOOLS, CHANGING LIVES:

"Jim co-founded SUN Schools **providing after-school services for thousands of kids**. And in a time of crisis, he helped find the money to keep local schools open."

Anna Kapranos, 2nd grade public school teacher

As County Chair, **Jim will make sure our K-12 public schools and community colleges get the immediate support they need**. He'll expand SUN Schools for kids to get access to early learning.

LEAVING NO ONE BEHIND:

"We support Jim because he's **doing the most to prioritize closing the gap between rich and poor**, standing up for so many simply left out or left behind."

County Commissioner Diane McKeel
Deirdre Mahoney-Clark, President, AFSCME Local 88

As County Chair, **Jim's very top priority is our local economy:** Generating high wage jobs to lift families out of poverty through the dignity of work.

Dear Voter – Our community can't really move forward while we're leaving so many behind. That's why I'll fight for better schools, job training and good jobs to kick open the door to the middle class.

County Commission Chair

STEVEN REYNOLDS

OCCUPATION: Self Employed

OCCUPATIONAL BACKGROUND: Army Officer, Entrepreneur

EDUCATIONAL BACKGROUND: United States Military Academy, West Point NY

PRIOR GOVERNMENTAL EXPERIENCE: Army Officer

My name is Steven Cody Reynolds, I am a West Point Graduate and a former Army Officer. My opponents have guided policy in the County over the past twenty years, and yet here we are. The quality of life in Multnomah county is attracting people from all over the world but little is being done to address the historically high unemployment, crumbling roads, bloated budgets, and rising costs of living in our wonderful home. Multnomah County needs leadership to bring jobs, infrastructure, and fiscal sanity to the county level.

During my first term I will cut current county expenditures by 20%. I will do this by transitioning county employees to Cover Oregon healthcare plans. I will freeze hiring for all non-emergency personnel, and I will consolidate county services and facilities. I will use the savings to pay down bonds and levies providing relief to strapped homeowners while stabilizing rising rents. Additional savings will be used to create safe sidewalk corridors for our children as they make their way to school.

Multnomah County is viewed as unfriendly to employers. Whether it is due to policy or perception we must change that view. I will use the full weight and authority of the County Chair to facilitate, assist, and expedite the roll out of Google Fiber. Further, I will do the same for any responsible employer seeking to bring jobs with dignity to Multnomah County. I will extend gain share tax agreements, that companies like Nike and Intel enjoy, to ANY business that commits to hiring and training the residents of Multnomah County in skill based careers.

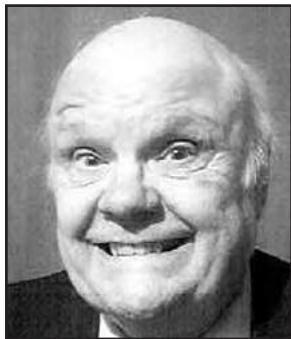

We can keep our values and have jobs. We can care for our fellow citizens and reduce our tax burden. With new leadership and new ideas we can be better.

WES SAYS ---

OPEN WAPITO JAIL – Last year we let out over 900 offenders due to jail overcrowding.

REPAIR OUR ROADS AND BRIDGES – Multnomah County's inventory of roads and bridges are in need of repair. The most equitable solution is the gasoline tax. Tolls on Willamette River Bridges are impracticable and we do not need another bureaucracy.

SAVE THE COURT HOUSE – The Multnomah Court House is scheduled for the wrecking ball. It would be a shame to lose this Historic Building.

OPEN MEETINGS – The Commission tends to work behind closed doors to avoid public debate.

REVIEW HOME RULE CHARTER – The present charter was adopted in the 1980's. There is a real need for public debate on how to make it better.

We are going through the worst economic downturn since the Great Depression. Recovery has been slow. We need patience and understanding. There will be more tax revenues as the economy improves. This should not be used as an excuse to doing nothing.

BRIAN WILSON

OCCUPATION: Running A Small Business

OCCUPATIONAL BACKGROUND: Expanding Family Small Business to Serve Portland Communities

EDUCATIONAL BACKGROUND: BA, MBA

PRIOR GOVERNMENTAL EXPERIENCE: Chair,

Multnomah County Charter Review Commission; Auditor's Citizen Campaign Commission; Community Task Force on Sellwood Bridge

"Brian knows how to bring communities together to address tough issues."

-County Vice-Chair Diane McKeel

Here's what can happen when government "goes local."

We can **break the gridlock** – and fix our bridges – like I did as part of the Sellwood Bridge Community Task Force.

We can **cut wasteful spending**, and use that money to make our county safer, improve schools and protect seniors. That's the small business owner's watchful eye I brought to the City Auditor's Budget Advisory Committee and the real world experience I'll bring to the county commission.

We can stop talking about homelessness and start addressing it, like I'm doing by fighting for new tools that allow police and deputy sheriffs to **direct the homeless to hospitals where they can be treated**, not just jails where they are processed and released.

We can open a **new chapter for parks, libraries and schools**. I helped lead the fight to improve and fund local libraries and I will expand that fight to protect the core services that make this such a great community.

We can do more with less – starting with my proposal to make our safety dollars go farther.

We can stop promising and start delivering. After years of building and running a business, I know how to balance budgets, make scarce funds do more and most of all – how to operate in the reality of limited dollars rather than the political world of unlimited promises.

We can work together as neighbors. I am not a politician; I am a neighbor, activist, board leader, environmentalist and businessperson. I hope you will join with neighbors like City Auditor LaVonne Griffin-Valade, Diane McKeel, Amanda Fritz, Maria Rojo de Steffey in support of our campaign.

"MAKE MULTNOMAH COUNTY WHOLE"

From Enterprise to Vale to Lakeview to Coos Bay and Portland, we have high unemployment, business slow downs and shut downs and our schools are in a funding crunch. The pain is even greater in Multnomah County. No one person can fix everything, but I believe I can help. Outsourcing good jobs over seas has to stop. Businesses need more reasons to stay in Multnomah County, grow and put more Oregonians to work in this county. Schools, including vocational programs, need funding. If low-income housing is needed, build it for truly low-income residents, including qualifying seniors. Ensure that the Senior Citizens are heard in their efforts to make Multnomah County their home.

County Commissioner, District 2

TERESSA L RAIFORD

OCCUPATION: Business Consultant

OCCUPATIONAL BACKGROUND: Philanthropy / Business Development

EDUCATIONAL BACKGROUND: Some college

PRIOR GOVERNMENTAL EXPERIENCE: None

Multnomah county needs leadership that will engage directly and effectively with constituents in N/NE Portland. I am prepared to meet those challenges. My main priority is to bring stability to our county economy. I support sensible measures to grow the economy like creating career development with STEM focus for youth in school and bridge relationships with companies that'll extend opportunities for youth to receive paid internships, apprenticeships to promote economic equity. I plan to help homeowners gain access to planning and outreach resources that build sustainable systems for families in our district including those who feel the affects of gentrification. I will bridge relationships between our county and city councils in regards to outreach services for the homeless, youth and people with disabilities as a way to use collective and improve our public health and safety systems.

I believe that dialogue between community members, elected officials and local leaders can help us develop much needed infrastructure to create jobs, support teachers and first responders in respect to effectively utilizing our county and city resources. Our most vulnerable citizens are seniors, youth and veterans, they are also the highest number of unemployed and homeless in our district, we need planning to secure long-term employment for them. I am committed to protecting health programs that are vital to our seniors. UniteWomen.org which I am the state director of, is a national organization fighting for womens rights for pay equity, ERA, and safe housing as a harbor from domestic violence sexual abuse. Direct engagement and consistent communication with neighbors and policy makers will lead to making us more effective in protecting our children, families and businesses. I remain vigilant in safeguarding the civil rights of our neighbors.

I'm running for County Commissioner because I possess the know-how, experience, and commitment to make a difference. Your support will be deeply appreciated.

What does the Auditor's Office do?

The Auditor's Office conducts performance audits and special studies that provide accountability to the public and improve programs, services, and operations. The elected Auditor answers directly to the citizens and determines the programs and services to be audited. While not all audits can quantify savings, just one of our past audits saved hundreds of thousands of dollars in just the first year and those savings have continued.

Dear Multnomah County Voter,

I started work as an auditor in 1991 and I've done auditing, fiscal and budgeting duties responsibly in difficult financial times in both the public and private sectors. Government needs to be able to be efficient and effective. As your Auditor, I will protect your tax dollars, critical services and work to ensure county government provides equity to its citizens and maintains the highest standards of upholding the public trust. CITY OF PORTLAND

Commissioner, Position 2

MICHAEL W DURROW

OCCUPATION: Activist

OCCUPATIONAL BACKGROUND: Photographer, Independent Software Engineer, Network Engineer, Realtor

EDUCATIONAL BACKGROUND: Portland Community College, Reed College, Portland State University

PRIOR GOVERNMENTAL EXPERIENCE: Precinct Committee-person 1992-Present, Grant Developer, Portland Development Commission 2002, Member and Volunteer "Art on Alberta," Albina-Killingsworth Safety Committee-person PCC-Cascade 2010-'13

I'm not a politician. I believe in cooperation, compromise and consensus. I do not abide c

I've got specific plans to address the current and future needs of Portland. More importantly, I have plans to PAY for those programs.

Amend The City Charter

1. Incorporate The Citizen Review Board and Internal Police Review, under The City Auditor.
2. Incorporate City Council authority to dismiss The Police Chief without cause.
3. Require a Coroner's inquest for any police related death.

Implement Technology

1. Apply existing technology to make The Portland Water Bureau more efficient to stabilize and reduce costs and rates.
2. Apply existing technology to assess road repair/ construction prioritization, coordination and scheduling.

Transportation

1. Enact a Vehicle Mileage Tax rather than increase the gas tax to compensate for lost revenue, due to hybrids, electric cars and fuel efficiency.
2. Place bike lanes on alternative parallel streets. Limit some residential streets to non-motorized vehicles and allow local access only. This will improve traffic flow, limit disruption to commerce and save lives.
3. To address citizen concerns regarding the inequity of gas tax money used for bicycle lanes: I propose a 1% surcharge on new non-motorized vehicles, parts and equipment. These funds would be used exclusively for the construction of bike lanes and other amenities.

I also support an increase in the minimum wage to 11.00 an hour.

A 2013 study by the Center of Economic Policy Research indicated, "...an increase in the minimum wage would have no discernible effect on employment." This action would have a measurable impact on the problem of homelessness and hunger.

Cast a vote for the future. Portland belongs to you.

- Michael Cathcart, Portland Socialist Alternative

Everyone Has a Right to the City

Portland's working class is struggling to afford rapidly increasing rent and property taxes. We need **housing justice** via rent control and other anti-displacement policies. We must stop criminalizing homelessness while we connect the disabled, veterans, seniors, and families in crisis to properly funded services.

Real Action on Climate Change and Environmental Justice

To protect our health and global climate, **we must ban coal trains and penalize corporate polluters**. Placing Portland's water supply in a Public Trust would protect our vital resource for present and future generations.

Police Accountability

Fixing the Portland Police Bureau requires an independent civilian review board with the power to investigate, subpoena, and when necessary, dismiss officers for acts of misconduct.

Campaign Promises

Caleb **limited contributions to his campaign to \$50 per person** and pledged to **accept only the average salary of a Portland worker** if elected while donating the remainder toward developing social movements.

A Candidate to Represent Portland

If elected, Caleb would likely be the only commissioner:

- living East of Cesar Chavez Blvd.
- under 50 years old
- educated at Portland and Oregon Universities
- running an entirely grassroots campaign without major self-funding
- riding a bike to work

Commissioner, Position 3

**JOE
MEYER**

OCCUPATION: KBOO Reporter

OCCUPATIONAL BACKGROUND: Open Source Programmer; Portland Police Forensics; Research Scientist

EDUCATIONAL BACKGROUND: PhD Physics Brown University

PRIOR GOVERNMENTAL

EXPERIENCE: None

Perspective and process differentiate me from the incumbent.

Perspective is formed by life experience and erudition. I was raised the third of six kids in a Midwestern middle-class household by parents who emphasized education and service over wealth and power. One grandfather was a fireman and the other was a barber; one grandmother worked at home, the other worked at home and washed floors at night.

I'm a husband, 25 years in the training, and a stay-at-home dad for 18. I'm a neighbor and a friend, a PhD physicist by training and a volunteer by vocation.

We all know how business is currently done at City Hall: the incumbents and their backers make decisions behind closed doors and then market it to the public. This is not only disrespectful but also inefficient: The best solution is unlikely to come forward and half-truths are expensive to maintain. For recent examples of this type of governance, please search the <http://KBOO.fm> web site for my 'DemocracyHere!' reports on fluoridation, developer-first housing policy, the JTTF, and the Portland Water Bureau.

The incumbents' half-truths are dividing us and make us poorer; the simple truth will bring us together and foster a broad prosperity.

Because I am not raising money for my candidacy, I come to City Hall with no strings attached. My process will be: Open and equal discussion among all stakeholders; evaluation of solutions based on science and best practices; and decisions made by informed consensus.

I bring to City Hall both the hard logic of a PhD physicist and a passionate commitment to children forged by 18 years of full-time child care. I bring to City Hall volunteer experience both at KBOO community radio and the Portland Police Department; both in math class and the PTA.

Dear Voter,
Four years ago, I ran to focus on jobs and strengthening our economy and I'm proud of Metro's accomplishments during my first term.

Jobs and the Economy: Good-paying jobs and an improving economy are my top priorities. I've fought to bring more businesses to our community through the Greater Portland Export Initiative Council, and worked to create job-friendly initiatives through the region's Economic Development District. And it's paid off. Today, unemployment is at a five-year low in our region.

Restoring and Protecting Nature: I led the successful effort to pass Measure 26-152 to protect and restore thousands of acres of natural areas and rivers, improving habitat and water quality.

Further the Zoo's Mission of Conservation: We moved forward with a voter- approved construction program to dramatically improve animal habitat including for our elephants.

I am asking for your vote for a last term. This is the greatest place in the world to live. Our job is to preserve it for our children.

Thank you,
Tom
