

Department: Community Justice **Program Contact:** Michael Callaghan
Program Offer Type: Support **Program Offer Stage:** As Requested
Related Programs:
Program Characteristics: In Target

Executive Summary

The Business Applications and Technology (BAT) section supports the implementation and use of new and existing information systems and data reporting tools which increase the effectiveness of staff and improve the delivery of services to clients. BAT also manages the Court Appearance Notification System (CANS), a collaborative, multi-jurisdictional program designed to reduce offenders' rate of failure to appear (FTA) in court, community service and other required appointments within the Community Justice System through the use of automated telephone reminders and alerts.

Program Summary

The BAT program provides oversight for evaluation, selection, purchase and implementation of effective, innovative technology solutions. BAT collaborates with partner agencies from local, state and federal governments as well as private service providers in order to develop system-wide technology solutions for data sharing. Team members of BAT work to foster the use and understanding of data management and reports for decision making and facilitate a variety of information system trainings that enhance the Department of Community Justice's (DCJ) operations.

CANS works by reminding defendants of upcoming court hearing dates, times and locations which help to reduce failure to appear (FTAs) and costs to the various enforcement agencies. The automated system also alerts offenders of payments due on restitution, compensatory and/or supervision fees, and appointments with their Parole/Probation Officers (PPO). CANS regularly monitors and reports program performance to the Local Public Safety Coordination Council (LPSCC) and the Criminal Justice Advisory Committee (CJAC).

This program offer contains services provided by the County's Information Technology organization which facilitate support information needs of the Department, system partners and the public. This includes development and maintenance of information systems to support business needs and easy access to data and other support services in order for DCJ to effectively utilize technology. This program also provides for the purchase and replacement of computer equipment, software and technology tools.

Through innovative technological solutions and wise technology investments, the Department is better equipped to promote community safety and reduce criminal activity. This program demonstrates effective agency collaboration and fiscal responsibility.

Performance Measures					
Measure Type	Primary Measure	FY14 Actual	FY15 Purchased	FY15 Estimate	FY16 Offer
Output	Number of system innovations, upgrades and system replacements implemented	3	NEW	6	8
Outcome	Percent of IT Projects that were completed within 12 months	22%	31%	32%	40%

Performance Measures Descriptions

Revenue/Expense Detail

	Proposed General Fund	Proposed Other Funds	Proposed General Fund	Proposed Other Funds
Program Expenses	2015	2015	2016	2016
Personnel	\$747,472	\$0	\$773,333	\$0
Contractual Services	\$105,550	\$0	\$135,950	\$0
Materials & Supplies	\$177,337	\$0	\$181,715	\$0
