Program Characteristics:

Executive Summary

The Department of Community Justice (DCJ) Adult Services Management (ASM) provides leadership and direction for the supervision of approximately 7,500 adults in the community annually. It is responsible for implementing evidence-based practices, managing risk, creating service standards, coordinating with public safety partners and ensuring the safety of department staff who supervise justice-involved adults.

Program Description

Adult Services Division (ASD) leadership is responsible for regulating policy, maintaining quality services, and implementing evidence-based and core correctional practices that reduce crime and change behavior. They partner with other public safety representatives and community stakeholders through the Local Public Safety Coordinating Council (LPSCC), Criminal Justice Advisory Council (CJAC), Oregon Association of Community Corrections Directors (OACCD), and Oregon Department of Corrections (DOC). This program offer supports critical oversight and leadership for adult services staff to achieve reductions in recidivism and reduce long held disparities in the criminal justice system.

DCJ's priority is to focus resources on the highest risk and highest need individuals and is utilizing current and evidence-based assessment tools that guide supervision by identifying criminogenic risk and need factors, and developing case plans that reduce risk to reoffend. Rapport and relationship building, along with structured directions, are key factors to reducing recidivism and part of core correctional practices.

ASD maintains evidence-based practices including specialized assessment tools and cognitive behavioral intervention programming. We utilize case management strategies that provide individuals the opportunity to change by addressing factors that research has shown to reduce criminal behavior. We work with DCJ's Research and Planning unit to track and analyze race and ethnicity data to identify where systemic racism is harming individuals and preventing them from successfully engaging with supervision and services, and are committed to intervening and redressing those harms using the tools available to us. In recent years, we have implemented trauma-informed practices and incorporated brain science into our practices. We will continue to focus on identifying and implementing more culturally responsive strategies in this area.

Performance Measures									
Measure Type	Primary Measure	FY22 Actual	FY23 Budgeted	FY23 Estimate	FY24 Offer				
Output	Number of adults supervised annually	7,590	7,500	7,500	7,500				
Outcome	Percent of adults convicted of misdemeanor or felony within 1 year of supervision start date	4%	7%	5%	5%
