Executive Summary

The Assessment and Referral Center (ARC) combines in-custody interviews, intakes (post prison and probation), orientations, and specialized services, for individuals released from state and local custody. Enhanced transition services provided at the ARC reduce duplication of efforts and increase the amount of screenings, referrals, and re-entry services available when an individual begins supervision (Post-Prison or Probation). The Health Assessment Team ensures interventions addressing criminogenic factors and social determinants of health are delivered effectively.

Program Summary

The ARC staff meets with justice-involved individuals before and after their release from incarceration. These individuals are considered high risk to re-offend, and ARC determines which strategies and services are most appropriate to reduce the risk of recidivism. Tailored referrals and re-entry services reduce re-offending and increase engagement. Coordinated and immediate service delivery before and after release addresses the individual's needs and enables effective interventions targeting criminogenic factors.

ARC staff meet with the majority of justice-involved individuals prior to their release from prison (reach-in visits), reducing the abscond rate for post-prison releases. Reach-in sessions inform the development of appropriate supervision plans and serve to reduce or remove potential roadblocks to the individual's successful transition from custody to the community. Reach-in sessions occur with individuals in state custody, as well as in County jails and residential treatment facilities.

ARC actively works to build partnerships with community based services and organizations, as well as other Multnomah County departments to provide the continuum of care that is needed for recently released individuals, including housing, health assessments, treatment access, case coordination, and family engagement.
