

Program #50037 - Adult Sex Offense Reduced Supervision (SORS) FY 2025 Department Requested

Department: Community Justice **Program Contact:** John McVay
Program Offer Type: Operating **Program Offer Stage:** Department Requested
Related Programs:
Program Characteristics: In Target

Executive Summary

The Sex Offense Reduced Supervision (SORS) caseload provides supervision for adults convicted of sex offenses who have been identified as low risk for sexual re-offense by validated risk assessment tools. A reduced level of supervision is provided to qualifying clients in order to monitor compliance with sexual offense specific treatment, sex offense registration and special conditions of supervision without introducing further system involvement, which can increase the risk of recidivism.

Program Description

The SORS caseload is for adults convicted of sex offenses who have been identified as low risk for sexual re-offense. These individuals have shown compliance via: (A) Completing a minimum of one year supervision and treatment; (B) Passing a full disclosure polygraph (if medically able and if no extenuating circumstances exist); (C) Passing a maintenance polygraph within six months prior to their transfer to the SORS caseload; (D) Having a limited sexual and criminal history.

- The program requirements are:
- Home visit every six months
 - Monthly reports, report in person every six months
 - Successfully complete maintenance polygraph every six months
 - participate in sexual offense specific treatment until discharged
 - pay court ordered fees

Individuals are returned to a high risk caseload if there are any indications of status instability or verified behaviors that present an increased risk to the community or victim. Anyone meeting the following criteria are excluded from SORS supervision: (1) Having a score of 6+ on the Static-99 assessment tool which is a risk assessment tool designed to assist in the prediction of sexual and violent recidivism among adult male sex offenders; (2) Having a primary sexual preference for children or sexual arousal to violence; (3) Having emotional identification with children; (4) Level 3 Sex designation.
