Program Characteristics:

Executive Summary

The Assessment and Evaluation (A&E) Program is a Behavior Rehabilitation Services (BRS), short term, trauma-informed, Qualified Residential Treatment Program (QRTP) accredited by The Joint Commission. A&E is designed to provide comprehensive assessment, individual skills training, goal setting and achievement, as well as stabilization and treatment readiness for youth. The A&E program serves high risk youth who may otherwise be in detention awaiting a community placement or placed on electronic monitoring. The goal of the program is to be a safe place where youth and their families can be connected to community resources or use their existing ones to create youth-specific, sustainable plans.

Program Description

The Assessment & Evaluation (A&E) program is a voluntary program for youth of all genders, ages 13-17, who require a staff secured, out of home placement for assessment, evaluation, stabilization, and transition planning. Youth may be enrolled for up to 90 days based on individual needs. Capacity for the program is 12 youth-4 are allotted to Department of Human Services (DHS) youth who are juvenile justice involved, 2 allotted to OYA Probation, and 6 allotted for Multnomah County juvenile justice involved youth. Participants receive an assessment administered by a licensed mental health professional, as well as a service plan that is developed by the Primary Counselor, parent (guardian), and the youth.

Each youth in the program has an individualized service plan that reflects how the program will address the youth’s issues, describes anticipated outcomes, and is reviewed and approved by the youth and the parent/guardian. Additional assessments (alcohol and drug, psychiatric evaluation) may be provided as indicated as well as assistance in obtaining assessments in the community (psychological or psycho sexual). The core philosophy of the program is to provide holistic, trauma-informed, client- and family-focused services for young people and their families, engaging youth in an array of services with consideration given to their developmental levels, gender needs, cultural background, community support, parental involvement, and other social support. The program follows best practices for trauma-informed care and has adopted a model which emphasizes strength-based and cognitive-behavioral interventions. Services also include individual and group counseling in a culturally responsive environment, skill training, family counseling, and parent training.
