

2015 Street Count Participation

The Street Count is conducted by agencies and organizations across Multnomah County that come into regular contact with people experiencing homelessness. These include agencies that provide services to homeless people, outreach organizations, schools, and agencies providing a wide range of services to low-income households (e.g. meal programs, food pantries, medical clinics, information and referral, workforce development agencies, etc.)

The table below lists the participating agencies for the 2009, 2011, 2013, and 2015 Street Counts. In order to make comparisons more logical, the table lists sites by agency rather than by individual site locations. (Some agencies with multiple departments or programs represent more than one Street Count site.)

The table reflects the number of survey forms returned by the sites before duplicates or ineligible forms were removed. Each form represents a household or a camp, so these figures do not provide an indication of the number of individuals counted by each organization. Additional agencies participated in the count but did not return any surveys because they did not encounter anyone who was unsheltered and had not yet been surveyed during the week of the count.
