Executive Summary

Family Court Services, Safety First Supervised Parenting Time and Safe Exchange Program provides residents of Multnomah County with a professionally operated safe site for at risk parents and their children to maintain meaningful contact. The program primarily serves children whose families have been impacted by domestic violence. The program is able to serve a broad constituency that includes those involved in the correction system, those with mental health challenges and parents who are homeless yet want safe contact with their children.

Program Summary

The call for professionally supervised parenting time options has been recognized as a critical community requisite especially for families impacted by domestic violence. It is well documented that women and children are at higher lethality risk after separating from an abusive partner. For the past four years, Safety First has provided crucial supervised parenting time and safe exchange services for the tri-county area. Judges, attorneys, corrections professionals and social service providers have relied on Safety First as a resource. The program has received over 700 referrals and was forced to stop accepting referrals in June 2016 because the community needs significantly outpaced program capacity. Over the past three years, approximately 365 children have benefited from services.

Historically, Safety First was partially funded by a grant from the Office on Violence Against Women and was limited to serving families impacted by domestic violence. In September 2016, Safety First learned further grant funds were not awarded and the program is now able to provide services to all families in need. For example, the program can allow for a safe and controlled reintroduction of the children to the absent parent who has been incarcerated. Research has shown that men who take on a parenting role after being in jail or prison are more likely to succeed on supervision (Hairston, 2002; Petersilia, 2003). Safety First will provide a much needed resource to justice involved individuals and their children.

Safety First has experience supporting families having many difficulties. Parents and children have experienced alcohol and drug addiction, mental health disorders, homelessness and child welfare involvement. The program will more intentionally outreach to community partners and further strengthen families experiencing challenges. Safety First is poised to continue meeting the clear need for supervised parenting time and safe exchange services for families in Multnomah County.
