Executive Summary

The citizens of Oregon have designated certain activities be regulated supportive of a safe and livable community. One of these activities is the MCSO's Alarm Program which administers and manages the reporting of legitimate and false alarms. False alarms are subject to penalties in an effort to reduce their number and unnecessary responses by law enforcement. The Program presently manages approximately 6,800 alarm customers.

Program Summary

Within the Law Enforcement Support Unit, the Alarm component (Alarms) issues burglary and robbery alarm permits, both residential and business. Currently, approximately 6,800 alarm customers are being managed within Alarms. Within Alarms, a False Alarm Reduction Program is run which tracks burglary and robbery alarms in unincorporated Multnomah County and through collaborative contracts with east Multnomah County cities.

Effective Alarm-use management increases the probability that law enforcement responds to valid alarms. This conserves scarce public safety resources by reducing the number of reported false alarms. The program includes penalties for the reporting of false alarms which motivates alarm customers to properly maintain their equipment and exercise sound alarm-use practices. False alarm response is an inefficient use of time and resources and presents potential safety concerns for innocent citizens and law enforcement as a result of an armed response. The efficient use and management of properly-working alarms provides increased security for the community, a reduction in criminal offenses, more effective law enforcement, and cost savings for the County.
