Program Description

MCSO's Criminal Justice Information Systems (CJIS) Unit strives to provide the highest quality, most reliable, and cost-effective Technology (IT) services to MCSO users. The Unit supports all components within the Sheriff's Office so that all employees are positioned to provide exemplary service within their respective areas of operation, all supportive of a safe and livable community. The CJIS Unit focuses on providing the best technology solutions, accurate information, and timely responses to consistently facilitate correct, data-driven decision making.

The Criminal Justice Information Systems (CJIS) Unit supports all aspects of technology for the Sheriff's Office, including both hardware solutions and software systems, cyber security and our transition to a digital agency . Currently the unit supports upwards of 3,000 users, between the internal MCSO users and partner agency users, all needing access to MCSO supported applications. The CJIS Unit works closely with justice partner agencies to provide their users secure access to MCSO applications and resources. The Unit supports external partners' access and authentication to applications as well as public access to MCSO data via MCSO's public website. The unit partners with several Multnomah County agencies as well as other Criminal Justice agencies across the state. The Unit supports 715 desktop / laptop PCs; 350 smartphones; 150 network printers; 100 servers, both virtual and physical; and over 3,000 users between MCSO staff, volunteers, and external partners needing access to MCSO Applications and technology. The Unit conducts thorough assessments of technology needs and recommends useful and cost-effective upgrades and/or solutions based on identified needs that are as inclusive as possible. One of the ways the Unit ensures needs are identified inclusively is by creating a transparent process, which helps to empower the end user by acknowledging diversity and utilizing differing opinions and backgrounds to get to the best overall solution.

Given its need to be available and ensure sustainability of its service, MCSO CJIS operates a technical support helpdesk which serves all users as quickly and efficiently as possible to ensure continuity of operations. Additionally, the CJIS Unit supports the technology and applications for tablets used for language interpretation and data sharing for phone and kiosk systems provided for MCSO Adults in Custody (AIC's), thus enabling equitable access to services for our AIC population. The CJIS Unit supports PREA (the Prison Rape Elimination Act) and other IT security-related policies and procedures to ensure compliance with mandated requirements. The CJIS Unit also hosts FBI and Oregon State Police (OSP) audits for agency compliance to FBI and OSP policies. The unit develops implementation plans for the audit recommendations.

The Criminal Justice Information Systems Program:

- Provides 24/7 support to more than 3000 users of MCSO systems and applications
- Onboards and maintains technology solutions for diverse agency work
