

Multnomah County Gender Affirming Services

Moda Health covers medical, surgical, behavioral health and additional support services for members who wish to seek gender-affirming care according to internationally accepted guidelines of the World Professional Association for Transgender Health (WPATH). For each of the services covered, the member must meet the specific criteria to progress with the care. We support safe and evidenced-based gender affirming services to provide the member with a quality experience.

Moda contracts with several network providers to assist with these services. [The Oregon Health Sciences University \(OHSU\) Transgender Health Program](#) is in the Moda Connexus network within the Portland Metro area. The program contact information is 503-494-7970. For additional questions and/or assistance in finding a provider please call 1-888-445-7413.
