# **Executive Summary**

The Change Center (CC) is a cost-effective public safety program that serves moderate and high risk, violent, mentally ill and drug addicted adults who are on probation and parole. The Change Center provides educational and cognitive behavioral skill-based programming as well as employment services through group sessions.

### **Program Summary**

The program works with moderate and high risk justice involved adults who have been released from incarceration or who have been sanctioned to the program by their Parole-Probation Officer (PPO). The program works to address relevant criminogenic need areas to help participants succeed on supervision and become successful in the community. Participants in this program receive services designed to address challenging life circumstances such as substance abuse, criminal thinking and attitudes, inadequate work skills and lack of stability and/or pro-social support.

Maintaining current service level allows the center to increase the dosage of cognitive behavioral therapy groups that participants receive. In alignment with DCJ's dosage model for how the department supervises higher risk individuals, increasing the number of groups as well as increasing gender-specific groups, creates space for more participants to successfully complete programming and helps to reduce overall risk.

Additionally, training on all cognitive behavioral groups and program practices will allow for employees working in this program to shift if needed, helping to ensure upfront assessments of needs is completed and participants receive programming that matches the recommendations from the assessments.
