Executive Summary

These programs promote public safety by monitoring and supervising justice involved adults on bench probation who have been convicted of Driving Under the Influence of Intoxicants (DUII). Staff monitor and supervise individuals by tracking each case for police contact, new criminal activity and compliance to conditions set by the Court. These programs' ability to monitor the activities of individuals allows the courts to effectively supervise these cases and address violations in a timely manner. MMP and FSMP are instrumental in holding bench probation clients accountable.

Program Summary

The Monitored Misdemeanor Program (MMP) and Formal Supervised Misdemeanor Program (FSMP), provide a service to the courts by monitoring police contacts with DUII clients who are placed on bench probation. The MMP program monitors individuals who have failed to successfully complete the DUII Diversion program or are otherwise ineligible for diversion. Fifteen percent of these individuals are high risk multiple DUII clients participating in the DUII Intensive Supervision Program.

FSMP is a program that has the ability to modify program operations according to regularly scheduled reviews with criminal justice partners. The most common offenses for people placed on bench probation are assaults, menacing, drunk driving, and theft. This program is risk-based and during the first phase of implementation focused on individuals convicted of two or more DUII offenses. The program is strongly supported by judges, who currently do not have sufficient staff or supervision programs to respond to all of the persons currently serving a bench probation.

DCJ's ability to monitor additional clients in FSMP is modeled on the existing MMP program that is utilized heavily by the Courts, but is restricted in terms of eligibility to only first and second time drunk driving convictions, and is limited in actual supervision provided. Clients on FSMP will be able to report compliance issues, maintain current address, contact information, and pay supervision fees electronically. On a regular schedule, compliance will be monitored with regards to special conditions such as treatment, community service, and restitution.

Defendants in both programs are entered into the statewide Law Enforcement Data System (LEDS) following their conviction. Police contact will generate an electronic notification sent to MMP staff. Staff researches the nature of the contact and sends a report to the supervising judge. The report to the judge includes information regarding law enforcement contact that reveals alcohol use, illegal driving or new criminal activity; or when an individual exhibits behaviors as reported by law enforcement which appear to constitute a significant danger to public safety.
