Executive Summary

The Capital Program Section manages the County's long-term improvement and replacement plan for the major building systems in all County owned buildings. The program prioritizes required work with available resources, and provides management and oversight of all the required improvements, construction, renovation and capital maintenance work in these buildings. The majority of the funding for this offer comes from the Capital Improvement Program (CIP) and Asset Preservation (AP) fees.

Program Summary

The section provides project management services including planning, design, and construction services. Project Managers ensure compliance with policies and statutory requirements including Federal, State and local regulations, Green Building policies, and Minority Women Emerging Small Business (MWESB)(COBID) policies. They incorporate sustainable practices in accordance with County policies and the Climate Action Plan. Project managers are also responsible for coordinating project activities with building users (both internal and external users), consultants, and contractors, and are a resource for improving service delivery programs' operations in association with capital improvements. The result is buildings that are usable and functional for their intended uses.

Project Managers assure that County capital projects are completed as planned and within their approved budgets. The Project Manager duties, in addition to Capital Improvement Program projects (CIP, Asset Preservation, and Library District) include coordinating service request work from departments, while taking into account the needs of operating programs and the need to accomplish work in a cost effective manner.

The Capital Program Section is funded by the Capital Improvement Program (78205-18), the Asset Preservation (78206-18) and Library Construction Fund (78213-18) Program Offers. The section provides an annual assessment of all Capital facility needs and develops a specific strategy consistent with available funding, which permits the completion of improvements in a carefully planned approach.
