Program #78319 - CRIM	ES Replacement			4/17/2017
Department:	County Assets	Program Contact:	Bob Leek	
Program Offer Type:	Existing Operating Program	Program Offer Stage:	: As Proposed	
Related Programs:				
Program Characteristics	: One-Time-Only Request			

Executive Summary

Assessment and implementation for the replacement of the legislatively mandated CRIMES case management system, Adult and Juvenile modules. The current system is 15 years old and the underlying technology has become outdated and prohibitively expensive to maintain. The IT Division will work in conjunction with the Multnomah County District Attorney (MCDA) to implement a new system.

Program Summary

The CRIMES case management system has been functioning as an electronic computer application since its creation in 1982. The current iteration consists of two modules (CRIMES Juvenile and CRIMES Adult) and has long surpassed its expected technical lifespan, with the current modules having provided solid and dependable case tracking and management to the MCDA's Office since its purchase 15 years ago. Technology capabilities have advanced considerably and continued modification of the underlying obsolete technology has become cost prohibitive. Along with increasingly prohibitive licensing costs, the current system is contributing to delays in the timely pursuit of prosecution of crime and public safety. The purpose of this funding request is to implement new technology that will modernize the case management system, thereby ensuring speedy prosecution while reducing operating costs.
