Executive Summary

La Clinica de Buena Salud (The Good Health Clinic), provides comprehensive, culturally appropriate primary care, enabling, and behavioral health services to the under and uninsured residents of the NE Portland, Cully Neighborhood. La Clinica was strategically placed, in partnership with the local community, to provide culturally competent care and vital services to a population that otherwise may not have access to medical care. The clinic provides care to approximately 2,600 patients that identify La Clinica de Buena Salud Health Center as their medical home.

Program Summary

La Clinica provides culturally appropriate services, and person center medical home (PCMH) services, preventive health and enabling services such as transportation, translation, case management and health education which address the needs of the whole person. La Clinica health and social services team includes: primary, preventive and urgent health care, behavioral health services, case management and resource referral. Although La Clinica was initially intended to primarily serve the Latino community, the program has expanded and responded to the area's changing demographics which include culturally-specific services for Somali immigrants and refugees, and Russian speaking families in the Cully neighborhood and beyond. La Clinica is the County's anchor health care program for homeless children and families. The program initiates consultation and coordination efforts with other providers to build cultural competency among other service providers and lead efforts to solve community problems.
