Multnomah				
Program #91021B - Lan	d Use Planning Compliance			6/19/2017
Department:	Community Services	Program Contact:	Mike Cerbone	
Program Offer Type:	Existing Operating Program	Program Offer Stage:	As Adopted	
<b>Related Programs:</b>				
Program Characteristic	s:			

#### **Executive Summary**

This program offer seeks to continue an existing position within the compliance section of the Land Use Planning Division. The offer would maintain the current service levels of the compliance section. Without this Program Offer the compliance program will be less timely in their response to new complaints raised to the county. This position will also allow the compliance section to continue to make progress resolving the historic backlog of complaints.

### **Program Summary**

Multnomah County is a unique and highly sought after location to live, work and recreate because the area offers vast open spaces, natural and scenic resources, forests and farmland. Land Use Planning develops and implements codes and policies to preserve the rural character by preventing urban sprawl. The code compliance section responds to possible land use and transportation right-of-way complaints through a voluntary compliance program. This offer has been submitted in response to community feedback and to allow the compliance section to continue to be responsive to new complaints while also providing the resources to continue to address the backlog of historic complaints. This additional FTE directly addresses these concerns by ensuring there are adequate resources to respond to compliance complaints in a reasonable timeframe.

A significant resource challenge for the program has been the ability to conduct inspections verifying conditions of permit approval have been satisfied. Roughly half of all land use application requests are associated with open compliance cases requiring resolution. By maintaining staff capacity, we will more efficiently meet the community's expectations and demonstrate the county's commitment to serving the community needs. This position is pivotal in that it resolves existing compliance situations while striving to reduce the overall amount of historic compliance cases that have yet to be addressed.

Performance Measures							
Measure Type	Primary Measure	FY16 Actual	FY17 Purchased	FY17 Estimate	FY18 Offer		
Output	Number of compliance inquiries	73	55	38	50		
Outcome	Number of compliance actions taken	59	55	60	60		
Quality	Percent of compliance cases resolved voluntarily	96%	100%	100%	100%		
Performance Measures Descriptions							

The output measure is the total amount on inquiries to the compliance program. The outcome measure is the total number of complaints resolved (cases closed). The quality measure is the percent of cases resolved through voluntary compliance.

## Legal / Contractual Obligation

Multhomah County must adopt a Comprehensive Plan that meets Statewide Planning Goals, including enacting and implementing regulations as provided under ORS 92, 195, 196,197, 215 and 390. The county regulates land uses in the National Scenic Area in accordance with federal law. These land use laws mandate the county review all development within its jurisdiction, prescribe extensive procedures the County must follow to ensure due process and set out a timeframe within which land use reviews must be completed. The county must update its codes to comply with new laws adopted each legislative session or when the Gorge Commission revises its rules. The county must appoint a Planning Director and employ staff necessary to carry out these responsibilities.
